

108 smd led solar motion light battery replacement

Overview

How do you replace a battery in a solar garden light?

The short answer is that in most solar garden lights you can simply remove the battery cover, take out the old batteries which came fitted with the device, and replace the battery with a new rechargeable battery of the same specification. But which type of battery do you need?

Are there any other special steps you must take?

.

How to change battery in solar post light?

You can change the batteries in most solar lights by opening the battery compartment and replacing the old batteries with new, compatible ones.

Can I replace my old solar light battery with a different mAh rating?

Yes, you can replace your old solar light battery with a slightly different mAh rating, provided it has the same voltage as the old one. However, be sure to choose replacement batteries with the closest possible mAh rating. We don't recommend replacing your solar light batteries with a much higher mAh rating.

When should I replace my solar light batteries?

Another smart way to figure out if it's time to replace your solar light batteries: is just to switch them to a different light! Grab the batteries from the solar light that's not performing well and put them into another one that's been lighting up just fine.

How do I change the battery in my solar light?

To change the battery in the solar post light, turn off the light, open the battery compartment, remove the old batteries, and insert new ones with the

correct polarity. Can I Use Regular AA Batteries in My Solar Lights?

.

What kind of batteries do solar garden lights use?

This saves a lot of space which is a bonus in solar lights where you don't want to have lots of small batteries packed in next to each other. In cheaper solar garden lights the batteries are most likely to be Nickel based. This could be either Nickel Cadmium (NiCd) or Nickel Metal Hydride (NmH).
