

25w foldable dual-port solar panel battery charger

Overview

What is a 25 watt solar charger?

Powerful, compact and weatherproof - the 25 Watt USB solar charger is a revolutionary accessory for hiking, camping, disaster prep and more! Designed in the USA. Backed by a local American company.

How does a solar charger work?

Efficient and Smart Charging: Featuring USB-A and USB-C ports, this solar charger can power two devices simultaneously, saving time and ensuring your gadgets stay ready as long as there's sufficient sunlight. Built-in smart charging technology optimizes power delivery and provides 100% safe charging for your devices.

Can a 25 watt solar charger cause cancer?

Warning: This product can expose you to chemicals including cobalt lithium nickel oxide, which is known to the State of California to cause cancer. For more information, go to Powerful, compact and weatherproof - the 25 Watt USB solar charger is a revolutionary accessory for hiking, camping, disaster prep and more!.

How much power does a monocrystalline solar panel use?

Each port is rated at 5V and pumps out up to 3 amps of power per USB port (25W total maximum output) to provide wall-outlet charging speeds. Monocrystalline panels with ETFE construction provide maximum efficiency and a UV-ray permeability of 95% compared to 80% from PET - makes the panel more efficient than most solar chargers.

What is included in a portable solar panel?

IP68 Water and Dust Resistance: Rated IP68, this portable solar panel is designed to endure splashes, spills, and light rain, ensuring reliable performance during outdoor adventures in unpredictable weather. What's

Included: 1x 25W solar panel charger, 1x USB-C to USB-C cable, 2x carabiners, and 1x elastic strap.

What is the maximum output of a solar charger?

The maximum output of each port is 5V/2.4A (12W), BUT this is laboratory data. Any clouds, angle toward sunlight, operating temperature and sunlight intensity will affect the real output. Can i use this solar charger indoors?
