

3 2v 400mah solar light battery

Overview

How many mAh battery for solar panel light?

(4-Pack) HyperPS 3.2V LiFePo4 14430 (14 x 43mm) 400mAh Rechargeable Battery for Solar Panel Light, Tooth Brush, Shaver, Flashlight Brief content visible, double tap to read full content. Full content visible, double tap to read brief content.

What type of battery does a landscape light use?

These 14430, 3.2-Volt batteries are designed for solar landscape lighting and are charged by the light's solar panel with no other equipment necessary. These batteries are intended for use only with solar landscape lighting products. How can we improve our product information?

Provide feedback. We have Hampton Bay walkway lights.

Can you use batteries in a solar light?

If using the batteries in a solar light, only solar rechargeable batteries should be used. Using standard batteries may damage the light. I bought a solar light from Home Depot and it had a 18500 600 mah 3.2 volt solar battery in it . I am guessing you do not sell them because I am unable to find them on your site . Thank you for your question.
