Get it all with this bundle, which includes a Solo with the Solo Gimbal preinstalled, along with a Solo battery and 8 propellers, all shipped in the 3DR backpack.

What is a drone gimbal?

A drone gimbal is an adjustable camera mount that attaches to your drone, keeping your camera level and maintaining your desired shooting direction. Some gimbals have anti-vibration features to minimize camera shake, so you get smoother looking video. What's the different between a 2-axis and 3-axis drone gimbal?

.

Which gimbal is best for commercial drones?

Gremsy is a leading provider of professional gimbals for the commercial drone industry. The Gremsy Mio is the next-generation of 3-axis compact camera stabilizers, delivering robust performance for professional applications and offering the best weight-to-payload ratio. What's New with the Gremsy Mio?

.

Does the 3DR Solo quadcopter have a camera?

The 3DR Solo Quadcopter lets you attach a compatible GoPro (Hero 3+ & 4) for capturing aerial shots. Please note that the drone itself doesn't include a built-in camera. You need to buy a GoPro separately. The shots captured by

the drone are super stable, thanks to the attached gimbal that enables smooth & shake-free footage.

Does 3DR solo have a camera?

As mentioned above, you won't find a camera on the 3DR Solo drone. Therefore, the obvious downside to buying this drone is that you'll need to spend extra 400-500 bucks if you don't already own a compatible GoPro model - GoPro Hero 3 or 4 - to start capturing aerial shots. What's more, 3DR has integrated GoPro to the drone very well.

Is the 3DR solo a good drone?

The 3DR Solo drone is definitely a speedy drone! It can hit over 55 mph speeds, which is a good 10 mph faster than DJI's Phantom 4. Therefore, if you need your drone that can match up the pace of, say, your car or motorcycle, then the 3DR Solo is a fantastic choice. You get multiple autonomous flight modes on the 3DR Solo quadcopter, which include:
