

Ac delco solar battery

Overview

What is AC Delco S2000 solar battery?

S2000 is the AC Delco's dedicated deep-cycle solar battery, which is designed for solar installations and applications only require minimal maintenance. Its features all deep cycle you could possibly need: Excellent cycling capability, long life, long discharge period and low discharge rate.

Does AC Delco have a battery?

Whether you have a car, truck, RV or a marine vehicle, there's likely an AC Delco battery that can power it. From a battery that is competitively priced to one that can withstand harsh elements, AC Delco has a battery for just about every need. Plus, our batteries are backed by some of the best warranties in the industry.

What are AC Delco Batteries used for?

AC Delco batteries are designed for multiple uses so you won't have to spend extra to purchase different batteries. You can use their batteries for starting your vehicle, high cycle uses, dual-purpose starting, and deep cycle applications. You will also find an inbuilt hydrometer that indicates the state of charge of the battery.

What makes AC Delco Batteries different?

In addition to that, AC Delco batteries come with a polypropylene case with a reinforced exterior that ensures the battery can withstand vibrations and road shocks without giving out. AC Delco batteries also come with a lead calcium expanded grid. This gives the batteries an edge over others.

Where can I buy AC Delco Batteries?

AC Delco batteries can be purchased at most automotive retailers and online. You can buy them on Amazon, Autozone, eBay, O'Reilly Auto Parts, RockAuto, StockWise Auto, and Summit Racing Equipment. All these websites are

authorized AC Delco retailers.
