

Arizer solo battery charger

Overview

What is the arizer solo 2 charger?

The Arizer Solo 2 charger is the replacement for the one that comes in the package when you buy the vaporizer. Even if your standard accessory is not missing, it's always good to have a backup to ensure that your device is always fully charged. The OEM charger can be used in the 110-240 volt range. Exactly as advertised.

How long does the arizer solo battery take to charge?

The battery will take 3-4 hours to fully charge, or longer if you use it while charging. If your battery is running low, with the Arizer Solo you don't have to wait for the battery to charge before you can use it. Just plug it in, set the temperature, and use the Solo while the battery continues charging.

Can you use the Arizer Air without charging?

The Arizer Air has removable batteries, allowing you to buy extras for trips without charging. You can use it while charging as well. Customize your sessions with 5 temperatures to choose from. The Arizer Air is the follow up to one of the most popular vaporizers in the world; the Arizer Solo.

Can I replace my arizer solo battery?

The Solo Battery is covered under a limited 1-Year warranty and is also available for purchase upon request. To inquire about replacing your Solo Battery send us an email to: service@arizer.com. Arizer Batteries should not be substituted for third-party batteries — Only use official Solo Batteries with your Arizer Solo.

How do I protect my arizer solo battery?

The Arizer Solo and Solo Chargers have built-in protections to prevent the battery from being overcharged or drained too low. To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower

temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures.

How do I conserve the battery life of the arizer solo?

To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures. Charge the battery as necessary.
