

# **Aston martin solar battery conditioner**

## Overview

---

What is a 12 volt Aston Martin battery charger & conditioner?

Suitable for all Aston Martin Vehicles, the 12 Volt Aston Martin Battery Charger and Conditioner is specifically engineered to suit the electronic architecture of Aston Martin. The conditioner will monitor the cars battery voltage to maintain 100% efficiency and performance without fear of over-charge.

How does the Aston Martin battery conditioner work?

The conditioner will monitor the cars battery voltage to maintain 100% efficiency and performance without fear of over-charge. The unit features a unique 'select and forget' function providing automated recovery from mains power loss. The UK Version is suitable for all UK, Ireland and Hong Kong Aston Martin models.

Should I use an Aston Martin battery charger & conditioner?

An Aston Martin Battery Charger and Conditioner shouldn't just be taking up space in your garage or only used when your vehicle won't start. Your Car battery should be cared for like any other part of your car and using the right battery charger can help you do this.

Where can I buy used Aston Martin parts?

At the Aston Store we specialise in providing Aston Martin new and used parts for a wide range of makes and models.
