

Automation technology electronic energy storage won the bid

Overview

On March 18, Huadian Group, one of the five largest state-owned power generation enterprises in China, released the list of the winning bidders in its 2025 procurement seeking a cumulative 6 GWh of battery storage.

On March 18, Huadian Group, one of the five largest state-owned power generation enterprises in China, released the list of the winning bidders in its 2025 procurement seeking a cumulative 6 GWh of battery storage.

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy.

Recently, Zhongdian Energy Storage Technology Co., Ltd. has won multiple large-scale energy storage projects in succession. On August 26th, Shandong Electric Times, a subsidiary of the company, successfully won the bid for the 400MW/1600MWh independent energy storage project in Balinzuoqi, Chifeng.

Good news, SMS Energy as a member of the consortium and East China Power Construction Survey, Design and Research Institute Co., Ltd. jointly won the bid for Xizang Kaitou Seni District Dagap 100MW/400MWh independent grid type energy storage project. This project is the highest altitude and largest.
