

Average ESS container price per 250MW in Indonesia

Overview

How much does shipping a 40ft container cost?

Container freight rates have increased substantially on most trade lanes in the past three years amid the COVID-19 pandemic. Based on aggregated data for all trade lanes, shipping a 40ft container in March 2023 cost around 3,162 U.S. dollars, around double that when compared to just a year before.

How do containerised Bess costs change over time?

How containerised BESS costs change over time. Grid connection costs. Balance of Plant (BOP) costs. Operation and maintenance (O&M) costs. And the time taken for projects to progress from construction to commercial operations. Other variables add costs to projects.

How much does a MWh system cost?

MWh (Megawatt-hour) is a measure of energy capacity (how long the system can continue delivering that power output). For example, a 1 MW / 4 MWh BESS has four hours of storage capacity. So, while the system might be \$200,000 per MW, the effective cost can be \$800,000 per MWh if it has four hours duration.
