Atlas Copco container energy storage system range with nominal power of 250-1000kW integrates our reliable battery ESS solutions into demanding applications, reduces fuel dependence and lowers maintenance and operational costs.

The ESS Price Forecasting Report provides a five-year forecast for the price of a DC battery container, including battery cells, modules, racking, and additional balance of system needed for a containerized battery system. The Q1 2025 report covers pricing outlook updates through March 2025.

In Germany, residential ESS installations now cost \$800-\$1,200/kWh – 34% cheaper than 2020 prices. Understanding energy storage system costs requires analyzing three pillars: China's CATL recently achieved \$97/kWh for LFP battery packs – a game-changer for commercial ESS pricing. But how does this.
