Net-Metering in Cyprus is a photovoltaic system that helps permanent residents of Cyprus to save on their electricity bills. The consumer chooses which system they wish to install on their roof or plot. Their photovoltaic system is connected to the EAC network and in this way the energy produced. How much does it cost to install solar panels in Cyprus?

The average price of installing solar panels has dramatically dropped over the last decade to almost 90%, allowing more people to afford such an investment. In Cyprus, it is estimated that it takes about 1.5 to 4 for the investment to pay off. The final price heavily depends on the specifications of your project and your needs.

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Can I use photovoltaic systems to harvest solar energy in Cyprus?

Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer. Learn how you can save € with solar panels via the Net Metering scheme Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer. Learn how you can save € with solar panels via the Net Metering scheme.

Can a non-residential solar system be installed in Cyprus?

Residents of Cyprus who haven't installed any other PV systems with any other Government Grant Scheme are entitled to apply for a non-residential solar panel project, and the panels can be installed either on the roof of the applicant's premises or on the ground. The contract between the producer and the EAC lasts 10 years.
