Solar battery is a battery that stores energy from a solar PV system. The system's panels absorb energy from the sun and convert it to electricity which then passes through the inverter for your home to use. A solar battery simply stores the energy generated by the solar panels in your energy.

A UPS (Uninterruptible Power Supply) gives you instant backup power, keeping your PC, Wi-Fi router, or gaming console running without interruption. It also protects your devices from voltage fluctuations and sudden shutdowns, preventing data loss and damage. Whether you're working from home or just.
