

Average residential ESS price per 100kW in France

Overview

The price of electricity per kWh in France can be freely determined by alternative energy suppliers. Therefore consumers have a choice between the regulated rates and market offers.

The cost of electricity supply includes the costs of supplying electricity, which are influenced by market and ARENH prices. Sales and marketing costs vary according to the structure of each.

There are three taxes on electricity : 1. The VAT; 2. The Transmission Tariff Contribution, known as CTA in French ; 3. The "Accise sur l'électricité".

Known as TURPE, the cost of electricity transmission is the same for all suppliers. It covers the cost of transporting electricity from its source (such as a nuclear power station or renewable).

The residential electricity price in France is EUR 0.283 per kWh or USD 0.330. The electricity price for businesses is EUR 0.157 kWh or USD 0.183. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

The residential electricity price in France is EUR 0.283 per kWh or USD 0.330. The electricity price for businesses is EUR 0.157 kWh or USD 0.183. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

According to EDF's blue tariff, which serves as the reference price on the electricity market, the price of electricity is 0.2016 €/kWh in the Base option, 0.2146€/kWh in Peak Hours, and 0.1696€/kWh in Off-Peak Hours. On the wholesale electricity market, this 2 september of 2025, the price of.

The power supply offered by EDF goes up to 36KVA, although in the following tables we only show tariffs to 18KVA. In addition, a supply more than 12KVA is not available for residential households using the ' Tarif de Base '. The tariffs include VAT and other increasingly significant taxes and.

The residential electricity price in France is EUR 0.283 per kWh or USD 0.330. The electricity price for businesses is EUR 0.157 kWh or USD 0.183. These

retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare France.

In the first half of 2024, the average electricity price for households in France peaked at 27.76 euro cents per kilowatt-hour because of an increase in power taxes and levies. Since 2010, the electricity prices for household consumption have been continuously increasing from 12.83 euro cents per.

Here you will find data on prices on the French and European electricity markets. The graphs illustrate the trends observed on the markets, as well as periods of tension on wholesale electricity prices. This graph compares the evolution of spot electricity prices in the French market. The values.

Even in 2023, French household prices were among the lowest in Europe. ☐☐
What's new in 2024-2025?

Taxes (which were cut during the crisis) are being reinstated. Regulated tariffs rose in 2024 but may drop again as wholesale prices fall. Businesses faced sharp price spikes in 2023 but are now. How much does electricity cost in France?

With the average household in France consuming about 4770 kWh electricity (in French) in 2024, the average annual electricity cost in France ranged from 1057€ - 1723€, depending on the electricity provider and plan chosen. This works out to an average monthly power bill of about 108€ per month.

What is the average price of electricity without taxes in France?

The average price of electricity without taxes in France in that period was € 0.2161 per kilowatt hour, compared to € 0.1893 kWh in the previous semester. The average price of electricity in France, in December of 2023, has been 0.2591€ per kilowatt hour.

How long does a French electricity account last?

The account requires an annual contract and will renew after one year to the regular list price. In the first half of 2024, the average electricity price for households in France peaked at 27.76 euro cents per kilowatt-hour because of an increase in power taxes and levies.

How much does electricity cost in 2025?

According to EDF's blue tariff, which serves as the reference price on the

electricity market, the price of electricity is 0.2016 €/kWh in the Base option, 0.2146€/kWh in Peak Hours, and 0.1696€/kWh in Off-Peak Hours. On the wholesale electricity market, this 2 september of 2025, the price of electricity is 28,0908€ per MWh.

What is the cheapest price per kWh in France?

Therefore consumers have a choice between the regulated rates and market offers. In september of 2025, several providers offer a price per kWh 14 to 20% cheaper than the EDF Tarif Bleu. The cheapest price per kWh available in the french market in september of 2025 is 0.1634€/kWh. This price is offered by Primeo with the offer Fixe -20%.

Why do French electricity prices fluctuate?

The hourly fluctuation of spot prices is a key characteristic of the French electricity market. Consumers with such plans experience varying electricity costs, directly influenced by market dynamics and energy availability.
