

Average residential ESS price per 250MW in Norway

Overview

Despite a decline in the spot price of electricity, the average electricity price for households was 3 percent higher in the second quarter of 2025 than in the previous quarter, but 1,1 percent lower than in the second quarter of last year.

Despite a decline in the spot price of electricity, the average electricity price for households was 3 percent higher in the second quarter of 2025 than in the previous quarter, but 1,1 percent lower than in the second quarter of last year.

This means that the appendix tables for end-users will show one aggregate price for fixed-price agreements per end-user category, with no further breakdown. In Statbank, new tables will be created that take into account the new classification of fixed-price contracts, and the old tables will no.

Nor.

One of the best services to see the electricity prices on a hourly basis is VG's "Strømprisen" service. This gives you the hourly electricity prices including VAT, meaning it's very close to what you will actually pay for using it. You need to start typing in the name of your municipality to find.

We compare all the power providers in Norway, as well as all the deals they offer, so you can sit back and choose between just the best for you. Get an overview of current prices and electricity plans available to you and how much you can save by switching power agreement today. Switching energy.

The residential electricity price in Norway is NOK 1.917 per kWh or USD 0.191. The electricity price for businesses is NOK 1.024 kWh or USD 0.102. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Norway.

The Strømstøtte subsidy, introduced in 2023, offers relief when prices spike. Looking ahead, the proposed "Norway Price" fixed-rate option (expected October 2025) aims to provide even more predictability for households. After

hitting record highs in 2022, electricity prices eased in 2023 and 2024. What are the taxes for households in Norway?

Taxes for households consists of tax on consumption of electricity, value added tax (VAT) and subsidies to Enova. All counties in Norway have the same tax rate for the consumption of electricity, apart from some parts of Troms and the whole of Finnmark, which are exempt.

How can insulation reduce electricity costs in Norway?

Given Norway's cold climate, a significant portion of electricity costs can come from heating. Proper insulation can significantly reduce these costs. Ensure your windows, doors, and walls are adequately insulated. If you're renting, speak with your landlord about potential insulation upgrades.

How much is a MWh in Norway?

This is -65% less than yesterday. In Norway 's local currency this equivalent to 65 NOK MWh, or 0.07 NOK kWh.

How do I know if my appliances are efficient in Norway?

Look for the Energy Label: In Norway, as in many European countries, appliances come with an energy label ranging from A+++ (most efficient) to D (least efficient). Prioritize those with higher efficiency ratings. Some electricity contracts offer reduced prices during off-peak hours, often during the night.

How do I choose the best energy efficient appliances in Norway?

They might have a higher upfront cost, but the savings in the long run can be substantial. Look for the Energy Label: In Norway, as in many European countries, appliances come with an energy label ranging from A+++ (most efficient) to D (least efficient). Prioritize those with higher efficiency ratings.

How many types of power tariffs are there in Norway?

Roughly speaking, there are three different types of power tariffs in the Norwegian consumer power market today. Prices in the power market change from month to month, and there is little to do with this as a consumer. All you can do is choose the right electricity plan that best suits your usage.
