

# **Average residential ESS price per 30kW in Dominican**

## Overview

---

The residential electricity price in Dominican Republic is DOP 6.809 per kWh or USD 0.108. The electricity price for businesses is DOP 10.130 kWh or USD 0.160. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all.

The residential electricity price in Dominican Republic is DOP 6.809 per kWh or USD 0.108. The electricity price for businesses is DOP 10.130 kWh or USD 0.160. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all.

The residential electricity price in Dominican Republic is DOP 6.809 per kWh or USD 0.108. The electricity price for businesses is DOP 10.130 kWh or USD 0.160. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

The rates of Consorcio Energético Punta Cana - Macao, S.A (CEPM) and Compañía de Electricidad de Bayahibe (CEB) are established in accordance with the criteria of regulatory agencies and taking into account international fuel indicators, inflation, and the dollar rate in our country.

They came back to me and said it was around RD\$15 kWh and costs typically between US\$5 - US\$20 per day depending how much we use the AC. Does that sound right?

It sounds like a lot! 3. Re: Average Electricity Rates in Punta Cana Electricity does cost more than we're used to. However, limit your.

The average electricity price in the Dominican Republic has dropped from 124.01 USD/MWh in 2022 to 121.68 USD/MWh in 2023. Since 2017, the average electricity price in the Dominican Republic has fluctuated between 119.36 USD/MWh (2021) and 167.82 USD/MWh (2017). The top amount of capacity installed.

The average price of residential electricity in the Dominican Republic experienced a continual decrease in recent years. In 2014, the average price

stood at Log in or register to access precise data. U.S. dollars per megawatt-hour. Since then, this figure dropped by around Log in or register to.

According to the Performance Report of State Electricity Companies of the Ministry of Energy, the average price of purchase and sale of electric energy increased 29.4% and 11.4%, respectively, in January of 2022 compared to the same month of the previous year. The document, published last March 17. How much does electricity cost in Dominican Republic?

Dominican Republic, June 2023: The price of electricity is 0.116 U.S. Dollar per kWh for households and 0.172 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How much does electricity cost per kWh?

For comparison, the average price of electricity in the world for that period is 0.155 U.S. Dollar per kWh for households and 0.152 U.S. Dollar for businesses. We calculate several data points at various levels of electricity consumption for both households and businesses but on the chart we show only two data points.

How much does a distributor pay per kWh?

This is the cost at which the distributors bought from the generating companies. According to the report, the sales price, which is the price at which the distributors sold to their clients, was 15.07 cents per (kWh), for an increase of 1.54 cents, or 11.4%.
