

Basf deploys energy storage

Overview

June 2025 – BASF has announced a strategic collaboration with Gotion High-Tech, China Gas Holdings, and BASF Shanshan Battery Materials, forming an unprecedented partnership focused on advancing energy storage systems, innovative battery materials, and green energy solutions.

June 2025 – BASF has announced a strategic collaboration with Gotion High-Tech, China Gas Holdings, and BASF Shanshan Battery Materials, forming an unprecedented partnership focused on advancing energy storage systems, innovative battery materials, and green energy solutions.

Long-duration battery energy storage system on a sodium-sulphur basis (NAS® battery) optimises energy use and stabilises power supply from renewable energy sources. As the first BASF production site worldwide, Schwarzheide is piloting green power supply for individual production parts through the.

The delivered NAS battery system consists of one set of four container type units connected in series, with maximum output of 1,000 kW and capacity of 5,800 kWh. The batteries are scheduled to be used in conjunction with a solar power generation system at BASF's Schwarzheide site, aiming to.

Invinity Energy Systems and chemicals company BASF have announced the first deployments of their non-lithium battery storage technologies in Hungary and Australia respectively. Anglo-American Invinity makes its own vanadium redox flow battery (VRFB) energy storage systems, while BASF has the.

But here's the kicker: this 158-year-old chemical titan is now charging full-speed into the \$33 billion energy storage arena [1]. Why would a company known for catalytic converters and agricultural solutions bet big on batteries?

Grab your lab goggles – we're about to mix business strategy with.

June 2025 – BASF has announced a strategic collaboration with Gotion High-Tech, China Gas Holdings, and BASF Shanshan Battery Materials, forming an unprecedented partnership focused on advancing energy storage systems,

innovative battery materials, and green energy solutions. This alliance aims to.

BASF Stationary Energy Storage GmbH sells long-duration sodium-sulfur batteries (NAS Batteries) for stationary applications. With more than 5GWh deployed over the last 20 years, NAS batteries are one of the most suitable technologies for large-scale, long-duration stationary energy storage. They. Why should you choose BASF stationary energy storage?

We at BASF want to contribute to a world that provides a viable future with enhanced quality of life. That is why we drive sustainable solutions along the complete value chain. The team of BASF Stationary Energy Storage supports you in finding the appropriate energy solution for your individual use case.

What is the energy concept of BASF?

Acquisition, Trade and Expertise – the energy concept of BASF. By 2026, BASF aims to reach our goal of 40:40:20, with 40% overall representation of women, 40% overall representation of men, and 20% either or other. Working for an awarded "Top Employer"?

BASF is one of the most attractive companies worldwide. Our differences make us successful.

What is BASF NaS battery?

Ludwigshafen, Germany, and Nagoya, Japan, June 10th, 2024 – BASF Stationary Energy Storage GmbH, a wholly owned subsidiary of BASF, and NGK INSULATORS, LTD. (NGK), a Japanese ceramics manufacturer, have released an advanced container-type NAS battery (sodium-sulfur battery). Join us - We are looking forward to meeting you!.

Does G-philos supply NaS batteries?

Since September 2020, G-Philos and BNB cooperate in P2G business with BASF supplying NAS batteries to G-Philos P2G projects. Find out more about G-Philos by following this link.

Basf deploys energy storage

BASF and NGK release advanced type of sodium-sulfur batteries ...

BASF Stationary Energy Storage GmbH, a wholly owned subsidiary of BASF, and NGK INSULATORS, LTD. (NGK), a Japanese ceramics manufacturer, have released an ...

[BASF Signs Strategic Agreement with Gotion High-tech!](#)

Recently, BASF entered into a four-party strategic cooperation agreement with Gotion High-tech, China Gas Holdings Limited, and BASF Shanshan, focusing on the research ...

Energy & Resources

Solar Chemicals Taking the efficiency of solar power to new heights - BASF is an innovative systems supplier of heat transfer and thermal energy storage media, designed to increase the ...

Remote Microgrids in Australia Testing Long-Duration ...

The project aims to prove the technical viability of zinc bromine and sodium sulfur batteries in remote microgrids and is driven by a need to find

...

Leader Energy, BASF to deploy sodium-sulfur batteries in SE ...

NGK October 11, 2023 Leader Energy, BASF to deploy sodium-sulfur batteries in SE Asia Energy-Storage.news Read at news.google Published over six months ago View all stories for ...

BASF Partners with Three Energy Giants to Build Closed-Loop

This partnership not only strengthens the clean energy supply chain but also accelerates commercial adoption of advanced energy storage technologies, including solid ...

[NAS Batteries Start Commercial Operation at BASF's ...](#)

The batteries are scheduled to be used in conjunction with a solar power generation system at BASF's Schwarzheide site, aiming to increase the site's rate of ...

[BASF & NGK Release Advanced Type of Sodium](#)

...

NAS Batteries are one of key contributors to a successful energy transition and carbon neutrality. BASF will begin deliveries of NAS MODEL ...

BASF Stationary Energy Storage GmbH

BASF Stationary Energy Storage - Unsere Unterstützung für Ihre Energiespeicherlösung Mit unseren NAS-Batterien tragen wir zur Energie wende bei, indem wir den Bedarf unserer ...

**#nasbatteries #energystorage
#renewableenergy #energytransition... ,
BASF**

With over 20 years of global deployment experience and more than 250 energy storage projects completed worldwide, BASF brings deep industry expertise to the table.

[NAS Battery for Stationary Energy Storage](#)

High-energy, long-duration sodium-sulfur battery
Global demand for power generated from renewable sources, such as wind or solar, is growing. Stationary energy storage is one of the ...

[Standard NAS presentation as of 06 Nov 2019](#)

Sodium-sulfur (NAS®) batteries for stationary energy storage BASF is an exclusive distributor of NAS® Batteries, produced by NGK Insulators, Ltd, Japan, globally (except for Japan, UAE, ...

BASF opens cathode production and recycling plant in Germany

The facility, located in Schwarzheide, Germany, is the first production facility for lithium-ion cathode active materials in Germany and the first fully automated large-scale one in ...

[BASF to supply sodium-sulfur batteries for green](#)

Sodium-sulfur (NAS) batteries made by NGK Insulators will be supplied by a subsidiary of chemicals company BASF for power-to-gas projects by South Korean company G ...

[BASF Signs Strategic Agreement with Gotion High-tech!](#)

The company is now exploring an innovative "energy storage + biomass" business model, transitioning into a low-carbon and intelligent integrated energy service provider.

BASF Stationary Energy Storage GmbH

BASF Stationary Energy Storage - Our Support for Your Energy Storage Solution With NAS batteries, we contribute to the energy transition by meeting our customers' need for stable, ...

[NAS Batteries Start Commercial Operation at BASF's ...](#)

This deployment of a NAS battery system at BASF in Schwarzheide will allow electricity stored in the NAS batteries during periods of ...

[BASF commissions 54-megawatt water electrolyzer](#)

Germany's largest proton exchange membrane (PEM) electrolyzer has gone into operation at BASF's Ludwigshafen site. Designed to produce zero-carbon hydrogen, the ...

[BASF und NGK bringen mit NAS MODEL L24 verbesserte ...](#)
