

Brinkmann solar light batteries

Overview

What is the best battery for a Brinkmann spotlight?

The NEATA NT12-2.8 battery is commonly used in Brinkmann spotlights, such as the Q-Beam, MaxMillion, and a few other models. It is suitable for a Brinkmann spotlight and is designed to provide excellent performance, durability, and long life. This battery meets or exceeds original manufacturer specifications.

Which lights are compatible with the Brinkmann Q-Beam battery?

The Brinkmann Q-Beam replacement battery (rechargeable) fits many units from Lithonia, Sure-Lite, Dual-Lite, Emergi-Lite, Light Alarms, LightGuard, Chloride, Prescolite and McPhilben. It also acts as a cross reference for dozens more. For more information, see our page [How to find your replacement battery](#).

How do I replace my Brinkmann Q-Beam Batteries?

To replace the batteries in your Brinkmann Q-Beam, you need to install the replacement batteries in the same original configuration they came out and use your existing Brinkmann Q-Beam hardware and cables to reconnect the batteries when applicable.

Does Brinkmann qbeam have a battery charger?

The Brinkmann Q-Beam comes with a 12V AC/DC Adapter for charging.

Does Brinkmann Q-Beam use a 5V adapter?

The Brinkmann Q-Beam does not use a 5V adapter. The Ac Adapter for Brinkmann Q-Beam is not 5V or 3.7V.

Should I buy a battery for my solar lights?

Before buying a battery for your solar lights, it's important to check the

voltage and amperage they need. For instance, if your light needs 3.7V and 2A, your battery should match these requirements. If the battery's voltage is too high, it could harm your lights. If it's too low, the lights won't get enough power to function properly.
