

Business energy storage project financing options in Poland 2030

Overview

With subsidies from the Polish Modernization Fund covering up to 65% and ultra-low-interest loans available, energy storage investment becomes more affordable, making the green transformation more accessible and cost-effective than ever.

With subsidies from the Polish Modernization Fund covering up to 65% and ultra-low-interest loans available, energy storage investment becomes more affordable, making the green transformation more accessible and cost-effective than ever.

Invest in energy storage and benefit from Poland Modernization Fund program, with subsidies covering up to 65% of costs provided by NFOŚiGW! Choose ZOE's offer and unlock an exclusive Green Energy Package! With subsidies from the Polish Modernization Fund covering up to 65% and ultra-low-interest.

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn). This initiative aims.

On 5 March 2025, the regulation of the Minister of Climate and Environment on the detailed conditions for the granting of public aid by the National Fund for Environmental Protection and Water Management for investments in electricity storage facilities and related infrastructure was published in.

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. The scheme's objective is to build a large-scale battery energy storage system (BESS). What projects are eligible for the.

The European Commission (EC) has greenlit Poland's USD 1.2bn scheme for projects to increase electricity storage capabilities to foster the transition to a net-zero economy under the Temporary Crisis and Transition Framework (TCTF). The move, approved on October 3, 2024, will aid Poland's shift.

Poland has just rolled out one of Europe's most ambitious energy storage programmes – a €980 million initiative that's set to transform the country's grid infrastructure. The Polish Ministry of Climate and Environment has finalised this landmark subsidy scheme, targeting over 5 GWh of new storage. Can Poland co-finance electricity storage facilities?

Credit: Phonlamai Photo/Shutterstock. Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn).

Will energy storage systems projects be subsidised under the National Recover & Resilience Plan?

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. [More »](#).

Can a loan cover a nuclear power plant in Poland?

Loans, available on preferential or market terms, can cover up to 100% of eligible costs. Poland recently took a significant step towards establishing its first nuclear power plant with the approval of 60.2bn zlotys in funding. Sign up for our daily news round-up!.

How much money does the energy reform programme cost?

The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn). This initiative aims to enhance the stability of the national power system and optimise the use of renewable energy sources.

Who is eligible for Poland's economic aid?

The aid is available to businesses having their registered office or a branch office in Poland (excluding financial companies). The call for proposal's budget is 893,460,000 zloty. The aid will be provided in the form of subsidies of up to 45% of eligible costs which may be spent by 30 June 2026 at the latest.
