

# **Canadian energy storage company plant operation announcement**

## Overview

---

TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- Northland Power Inc. ("Northland" or the "Company") (TSX: NPI) is pleased to announce that the Oneida Energy Storage Project ("Oneida") has successfully commenced commercial operations.

TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- Northland Power Inc. ("Northland" or the "Company") (TSX: NPI) is pleased to announce that the Oneida Energy Storage Project ("Oneida") has successfully commenced commercial operations.

TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- Northland Power Inc. ("Northland" or the "Company") (TSX: NPI) is pleased to announce that the Oneida Energy Storage Project ("Oneida") has successfully commenced commercial operations. The project was completed ahead of schedule and under budget and.

Toronto, Ontario – May 7, 2025 – The Oneida Energy Storage Project has officially commenced commercial operations, becoming the largest grid-scale battery energy storage facility in operation in Canada and one of the largest globally. Located in Haldimand County, Ontario, the 250 MW / 1,000 MWh.

KITCHENER, ON, April 23, 2025 /PRNewswire/ -- Canadian Solar Inc. (the "Company" or "Canadian Solar") (NASDAQ: CSIQ) today announced that e-STORAGE, which is part of the Company's majority-owned subsidiary CSI Solar Co., Ltd. ("CSI Solar"), has signed a contract with Colbún, one of Chile's.

Located in Haldimand County, Ontario, Oneida Energy Storage is a fully operational, 250 MW/1,000 MWh lithium-ion battery energy storage facility. It represents Canada's largest operational energy storage facility, and is amongst the largest energy storage projects globally. Oneida Energy Storage is.

The installed capacity of energy storage larger than 1 MW—and connected to the grid—in Canada may increase from 552 MW at the end of 2024 to 1,149 MW in 2030, based solely on 12 projects currently under construction 1. There

are an additional 27 projects with regulatory approval proposed to come.

Today the Independent Electricity System Operator (IESO) announced seven new energy storage projects in Ontario for a total of 739 MW of capacity. The announcement is part of the province's ongoing procurement for 2500 MW of energy storage to support the decarbonization and electrification of. How many MW of energy storage projects are there in Canada?

"At Energy Storage Canada we're excited to see the IESO's announcement of more than 700 MW of energy storage projects as the next step in Canada's largest energy storage procurement to date," said Justin Rangooni, Executive Director, Energy Storage Canada.

What is Canadian energy storage?

The blueprint for Canadian energy storage. Located in Haldimand County, Ontario, Oneida Energy Storage is a fully operational, 250 MW/1,000 MWh lithium-ion battery energy storage facility. It represents Canada's largest operational energy storage facility, and is amongst the largest energy storage projects globally.

What is Canada's first battery energy storage facility?

TORONTO, May 7, 2025 - The Oneida Energy Storage Project ("Oneida") has officially entered commercial operations, becoming the largest battery energy storage facility in operations in Canada, and one of the largest globally. Follow along for a behind-the-scenes look at building Canada's first battery energy storage facility.

Which energy storage projects are advancing in Canada?

In addition to BESS projects, there are also many Long Duration Energy Storage (LDES) technology-based projects advancing in Canada such as compressed air, pumped hydro and other non-lithium ion battery chemistries. About Energy Storage Canada: Energy Storage Canada is the only national voice for energy storage in Canada today.

When did energy storage start in Canada?

The first energy storage project in Canada, the Sir Adam Beck Pump Generating Station, came online in 1957. However, the next project did not come online until 2013. There are three main types of energy storage currently commercially available in Canada:.

Is Northland the largest battery energy storage facility in Canada?

The project was completed ahead of schedule and under budget and is the largest battery energy storage facility in operation in Canada. “Today marks a major milestone for Northland and the Oneida project,” said Christine Healy, President & Chief Executive Officer of Northland.
