

Cheapest floor standing battery installation offer in New Zealand

Overview

Are batteries safe in New Zealand?

Yes. New Zealand has strict standards that apply to batteries including the location and installation. If these are followed, the risk of fires is very low. Can batteries be recycled?

Yes! 95% of a lithium battery has the potential to be recycled and second life battery manufacturing is occurring in New Zealand.

Can you use a deep cycle battery on a floor machine?

Trust in US Battery and Trojan Battery's wet or dry cell deep cycle batteries to provide reliable power to your floor machine. There is a golden rule for Marine Application batteries, deep-cycle batteries can be used for engine starting but starting batteries should not be used for deep-cycle applications.

How do I order a battery in New Zealand?

Order your battery from your desk and it will be delivered to your door - free to main centres in New Zealand. Be in complete control of the ordering process while you're 'one on one' with a battery specialist. Pay by Credit Card, Cheque or internet banking - your choice.
