

Clore solar battery charger

Overview

Model PL4050 is a perfect charger to meet the needs of mechanical repair shops, collision repair facilities, fleet operations, marinas and consumers. It features four independent output channels, each designed to properly charge a standard flooded or AGM battery (including Spiral).

Model PL4050 is a perfect charger to meet the needs of mechanical repair shops, collision repair facilities, fleet operations, marinas and consumers. It features four independent output channels, each designed to properly charge a standard flooded or AGM battery (including Spiral).

12V Flashing Power Supply Battery Chargers provide stable power for vehicle re-flashing applications, with up to 100 amps available on demand. Using a switching power supply and advanced circuitry, the units keep voltage ripple to a minimum to deliver clean power that will not disrupt the.

Founded in 2001, but with an over 50 year heritage, Clore Automotive is in the design, development and manufacture of automotive service equipment for professionals and consumers. Our brands include some of the widely recognized names in the automotive equipment aftermarket, including Booster PAC.

Four independent output channels, charge up to four batteries at once. Model PL4050 is a perfect charger to meet the needs of mechanical repair shops, collision repair facilities, fleet operations, marinas and consumers. It features four independent output channels, each designed to properly charge.

The PL6850 is designed to provide stable power, on demand up to 120 amps, to a vehicle electrical system to support module reprogramming. It is also designed specifically for fleet service battery charging with a maximum charge rate of 120 amps, to quickly and effectively bring 4- and 8-battery.

PRO-LOGIX offers a wide range of portable chargers, including everything you need to charge 6V, 12V and 24V batteries and systems, with 24/7/365 capability for the busiest pro shops.

Introducing the updated Solar 1002, a 12V 1.5A Underhood Battery Charger/Maintainer from SOLAR. Designed for permanent in-vehicle mounting, it properly services all lead acid battery types and requires no settings or adjustments. Perfect for service vehicles and a variety of fleet applications.
