

# **Containerized BESS tender price in Spain 2025**

## Overview

---

What is the current situation of the Spanish Bess market?

The current situation of the Spanish BESS market confirms that both of these factors are required to gain market attraction: Despite a high penetration of renewable energy, the Spanish regulatory framework has been lagging and the first BESS projects of significant size have yet to be built.

How does Spain's pumped hydro energy storage compete with Bess?

Spain's pumped hydro energy storage competes directly against BESS, limiting the battery storage opportunity in wholesale markets. 3. Missing ancillary markets Unlike Great Britain or Texas, Spain never created ancillary service markets that net-zero systems need:.

Does Spain need a Bess energy system?

Currently, Spain has 6.3GW of hydroelectric and 1GW of thermal storage capacity installed. In fact, the non-BESS storage capacity in Spain is higher than in any other European country. As a result, the need for BESS to integrate renewable energy sources into the electricity system is less immediate than in the UK, for example.

How many Bess projects are there in Spain?

In March 2025, UK companies Renewco and Atlantica announced the development of up to 2.2GW of BESS projects across Spain. Other projects in the pipeline primarily involve storage co-located with solar or wind generation. According to BloombergNEF, the total capacity currently in the BESS pipeline is around 3GW.

Why is Bess less urgent in Spain?

Another reason the integration of BESS is less urgent in Spain is the high resilience of the Spanish grid, despite its low level of interconnection. The Spanish TSO operates a very solid matrix-design grid, which includes a system

for technical restrictions centrally operated in the Renewable Energy Control Centre (CECRE).

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

## Containerized BESS tender price in Spain 2025

---

### ['Mind-blowing' bids in Power China's 16GWh BESS tender](#)

EPC firm Power China's recent 16GWh BESS supply tender has seen very low prices bid, amidst a squeeze of market share from state-owned firms.

### [Containerized BESS Market 2025-2030: Growth](#)

...

The commercial container energy storage market is currently in a critical period of rapid development. Driven by policy support, technological progress, and market demand, the industry will continue to evolve towards ...

### [Levelized Cost of Storage for Standalone BESS Could ...](#)

This implies that bids for solar with battery storage will hover around INR3.94 (\$0.052)/kWh by 2020, INR3.32 (\$0.044)/kWh by 2025, and INR2.83 (\$0.038)/kWh by 2030. The report says that these costs are inflation-proof, ...

### [EU approves Spain's EUR700m energy storage subsidy ...](#)

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to

85%.

[The rise of bankable BESS projects in Europe](#)

The rise of bankable BESS projects in Europe As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for ...

[PowerChina receives bids for 16 GWh BESS tender ...](#)

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...

[Date: 30-06-2025 NOTICE INVITING TENDER \(NIT\) Title](#)

Date: 30-06-2025 Solar Energy Corporation of India Limited (SECI) hereby intimates its intent to setup the BESS Project as per the following details:

[Spain awards contracts to 1.9GWh energy storage in ...](#)

Spain is targeting 20GW of energy storage by 2030. This BESS was deployed by Ingeteam at a green hydrogen facility in Ciudad Real. Image: Ingeteam. The government of Spain, through the Institution for the ...

### [China's CGN New Energy announces winning bidders ...](#)

China's independent power producer CGN New Energy has announced the results of its 2025 procurement for lithium iron phosphate (LFP) battery energy storage systems, which will be installed alongside solar and ...

### **Outlook 2025: The future of the utility-scale BESS market**
