

Cover for solar battery

Overview

What is a solar battery cover?

Designed to blend seamlessly with your outdoor décor, this solar battery cover not only offers robust protection but also enhances the aesthetic appeal of your setup. Features: Superior Material: Constructed from marine-grade aluminum, ensuring long-lasting durability and resistance to harsh weather conditions.

Can I cover a solar battery?

We're often asked "can I cover a solar battery". Solar battery covers are used for the same reason a solar inverter cover is used. They block any harmful direct sunlight and allow sufficient airflow to pass through the sides and top of the cover for cooling purposes.

Which solar inverter covers are available?

We have solar inverter covers for Fronius Primo and Fronius Symo inverters, Sungrow and Sungrow Hybrid inverters, Solaredge inverters and Goodwe inverters as well as battery covers for the Tesla Powerwall and Sungrow battery plus many more. We chose to design a universal cover which means our covers have no cutouts in the front panel.

Why should I buy a solar battery cover?

Invest in a solar battery cover from Simply Covers to promote solar performance and extend the lifespan of your battery! Our battery covers are compatible with a wide range of brands, makes and models, including: And many more. However, if you can't find the right fit for your battery, we can manufacture one from scratch!.

What colour is a solar battery cover?

At Simply Covers, we offer a more sleek and stylish design with various colour options, including dark grey, light grey (solar control grey) and solar white

(solar ice)! Carefully selected to blend in with your home's facade, our covers are a more attractive option to protect your battery.

What is a solar cover?

Designed to protect your solar equipment from weather and allow airflow to keep your solar equipment cool. Made from high quality marine grade aluminium and finished with powder coating. Our covers come including screws and wall plugs for easy installation.
