

# Division of energy storage enterprises

## Overview

---

The Division advances research to identify safe, low-cost, and earth-abundant elements for cost-effective long-duration energy storage. OE's development of innovative tools improves storage reliability and safety, analysis, and performance validation. What are the different types of energy storage technologies?

This report covers the following energy storage technologies: lithium ion batteries, lead acid batteries, pumped storage hydropower, compressed air energy storage, redox flow batteries, hydrogen, building thermal energy storage, and select long duration energy storage technologies.

Where is Hydrostor energy storage located?

Hydrostor's Willow Rock Energy Storage Center in California. Courtesy: Hydrostor For years, the U.S. Department of Energy (DOE) has championed the potential of advanced compressed air energy storage (A-CAES), and now the feds are putting a whole bunch of money where their mouth is.

What makes EOS a great energy storage solution?

Positively ingenious. Eos is accelerating the shift to American energy independence with zinc-powered energy storage solutions. Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications.

How can America improve energy storage?

: Increasing America's global leadership in energy storage through a DOE-wide effort led by OE and EERE to develop, commercialize, and use next-generation technologies. : Reducing grid-scale storage costs by 90% within the decade for systems that deliver 10+ hours through a variety efforts coordinated by the ESGC.

What is Hydrostor's Silver City Energy Storage Center?

It follows the 2 MW Goderich Energy Storage Centre, an operational demonstration facility in Ontario, and the Silver City Energy Storage Center, a 200 MW/1.6 GWh project under development in Australia. A rendering of Hydrostor's Silver City Energy Storage Center in Australia.
