Energy Solutions Group (ESG) announced today that it has completed project financing for a 75-MW/300-MWh battery energy storage system (BESS) under construction in Belgium. The Megapack battery system. Source: Tesla Inc The financing was arranged by KBC Bank and Wallonie Entreprenneur. The latter.

Energy Solutions Group (ESG) has successfully secured project financing for its innovative 75 MW / 300 MWh energy storage project in Harmignies, near Mons, Belgium. The project, under construction and set to be operational by autumn 2025, aims to address the growing demand for flexible energy.

The Belgian government has implemented various regulations and incentives to encourage BESS deployment: Tax credits: Tax incentives may be available for investments in BESS projects, reducing the overall capital cost. Subsidies: Direct subsidies or grants may be available through regional or.

While a quick poll at the opening session of the Battery Business & Development Forum 2025 suggested that financing is no longer seen as the biggest hurdle for battery storage deployment, the session “Bankability and Financing in the Context of BESS” drew significant interest. The room was. Is ESG financing a battery energy storage system in Belgium?

What is ESG's Bess project?

It is located on an industrial site next to an ELIA high-voltage substation, a key site for integrating renewable energy into the Belgian grid. This project marks ESG's second and largest BESS (Battery Energy Storage System) in its portfolio, reinforcing its commitment to energy transition efforts in Belgium.

What is ESG & KBC Bank & Wallonie Entrepreneurs?

The project, under construction and set to be operational by autumn 2025, aims to address the growing demand for flexible energy solutions and contribute to the sustainable energy transition. ESG has partnered with KBC Bank and Wallonie Entrepreneurs to secure the necessary financial backing.

What is ESG's Bess (battery energy storage system) project?

This project marks ESG's second and largest BESS (Battery Energy Storage System) in its portfolio, reinforcing its commitment to energy transition efforts in Belgium. Frederik Jansen, ESG's CTO, emphasized the collaborative efforts of partners Spie, Yuso, Sweco, House of Projects, and Tesla in delivering this pioneering project.

How has ESG energized the green transition in Belgium?

Frederik Jansen, ESG's CTO, emphasized the collaborative efforts of partners Spie, Yuso, Sweco, House of Projects, and Tesla in delivering this pioneering project. The milestone of reaching financial close was celebrated as a significant step towards energizing the green transition in Belgium.

When will ESG be operational?

The site is expected to become operational by the autumn of 2025. Project

partners include Spie, Yuso, Sweco and House of Projects. ESG is active in the field of solar energy, wind energy, rapid charging infrastructure and energy storage. In December, ESG wrapped up a EUR-60-million capital raise led by Alpha Renewable Energy Fund and by SFPIM.
