

East african power storage project bidding information

Overview

Who is supplying battery energy storage systems in South Africa?

Source: Eskom. A Chinese green technology company has been contracted to supply battery energy storage systems (BESS) for the Oasis 1 cluster of projects in South Africa. Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage.

Is Envision Energy the largest energy storage system supplier in South Africa?

Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage. The company claims this marks the largest BESS order in South Africa and positions it as the first energy storage system supplier in the region to secure a GWh-scale order.

How will Bess projects impact South Africa's Energy Security?

As South Africa continues to grapple with frequent blackouts and load shedding, these BESS projects will help mitigate risks and contribute to the country's energy security. The Gainfar Project will be connected to the Ngwedi substation, while the Boitekong Project will be connected to the Marang substation.

Who is the preferred bidder for South Africa's 123 MW retreat Bess project?

In May 2025, South African independent power producer (IPP) Mulilo emerged as the preferred bidder across four of the sites: the 123 MW Retreat BESS project at the Merapi substation, with an evaluation price of R2 477.86/MWh.

What will the gainfar & Boitekong projects do for Eskom?

The Gainfar and Boitekong projects, located in the North West Province, will each have a capacity of over 300MWh. These projects will play a vital role in strengthening Eskom's grid stability.
