

Energy storage anti-dumping

Overview

Anti-dumping, countervailing duties on battery materials could have serious effects on the EV and energy storage markets, as the battery material and manufacturing markets in the U.S. are still in very early stages.

Anti-dumping, countervailing duties on battery materials could have serious effects on the EV and energy storage markets, as the battery material and manufacturing markets in the U.S. are still in very early stages.

Anti-dumping, countervailing duties on battery materials could have serious effects on the EV and energy storage markets, as the battery material and manufacturing markets in the U.S. are still in very early stages. The American Active Anode Material Producers (AAAMP), a coalition of U.S. graphite.

A new antidumping/countervailing duties (AD/CVD) investigation could affect domestic manufacturing and deployment of lithium-ion energy storage and EV batteries in the United States. In Dec. 2024, the American Active Anode Material Producers (AAAMP) filed petitions with the Dept. of Commerce and.

The US PV market is undergoing major policy changes, with the most significant shift stemming from the anti-dumping and countervailing duties (AD/CVD) on PV modules and cells from Southeast Asia, which are reshaping the non-China PV supply chain. In December 2024, the US Department of Commerce.

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on active anode materials. The supply chain for Active Anode Materials (AAM) is dominated by Chinese producers, with attempts to establish the full supply chain outside of China years away.

DOE conditional loan of \$584.5 million for solar-plus-storage in Puerto Rico
The loan guarantee is intended to finance a Convergent Energy and Power solar system with integrated battery energy storage and three stand-alone energy storage projects across Puerto Rico. Amazon Solar Farm goes live in.

The American Active Anode Material Producers filed antidumping and

countervailing duty petitions on Dec. 18, 2024, with the U.S. Department of Commerce and International Trade Commission to address alleged unfair imports of active anode material from China, with claimed dumping margins of 828. Are anti-dumping duties on active anode materials threatening battery installations?

Battery installations in the U.S. are threatened by the imposition of anti-dumping, countervailing duties on active anode materials. The supply chain for Active Anode Materials (AAM) is dominated by Chinese producers, with attempts to establish the full supply chain outside of China years away. From ESS News.

Will a new antidumping/countervailing duties investigation affect lithium-ion energy storage and EV batteries?

A new antidumping/countervailing duties (AD/CVD) investigation could affect domestic manufacturing and deployment of lithium-ion energy storage and EV batteries in the United States.

Why did the American active anode material producers file antidumping and countervailing duty petitions?

The American Active Anode Material Producers filed antidumping and countervailing duty petitions on Dec. 18, 2024, with the U.S. Department of Commerce and International Trade Commission to address alleged unfair imports of active anode material from China, with claimed dumping margins of 828 percent and 921 percent.

What is a dumping investigation?

Under U.S. law, domestic industries can request AD investigations to determine whether imported products are being sold in the U.S. at less than fair value, known as "dumping." They can also seek CVD investigations to examine whether foreign producers are receiving unfair subsidies from their governments.

Is artificial graphite a tariff on EV & ESS?

Under the sweeping Sec. 301 tariffs against Chinese goods, artificial graphite is currently excluded, but natural graphite was added to the tariff list in Sept. 2024, and a 25% tariff rate is set to go into effect on natural graphite on Jan. 1, 2026. Regardless, AAAMP is asking for a deeper look at AAM used in the EV and ESS market.
