Overview

What is the future of energy storage?

Global installed energy storage is on a steep upward trajectory. From just under 0.5 terawatts (TW) in 2024, total capacity is expected to rise ninefold to over 4 TW by 2040, driven by battery energy storage systems (BESS). Last year saw a record-breaking 200 gigawatt-hours (GWh) of new BESS projects coming online, a growth rate of 80%.

What will the energy storage industry look like in 2025?

In 2025, the commercial and industrial energy storage industry will see even larger-scale development driven by policy guidance, market demand growth, technological innovation, and business model upgrading.

Where can I find information about home energy storage & commercial energy storage?

For more information about home energy storage and commercial and industrial energy storage, please contact GSL Energy. In 2025, the commercial and industrial energy storage industry is set for substantial growth, fueled by global policy support, cost optimization, and renewable energy adoption.

How did energy storage grow in 2022 & 2023?

The US utility-scale storage sector saw tremendous growth over 2022 and 2023. The volume of energy storage installations in the United States in 2022 totaled 11,976 megawatt hours (MWh)—a figure surpassed in the first three quarters of 2023 when installations hit 13,518 MWh by cumulative volume.

Why is energy storage a key solution for industrial & commercial energy storage?

1. System capacity expansion: industrial and commercial energy storage demand is growing from dozens of kWh to MWh level, large-scale business parks, grid-side energy storage projects, and containerized energy storage

systems have become an important solution for the market.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.
