If you're skimming this, chances are you're either an engineer hunting for energy storage equipment specifications, a project manager building a BOM (Bill of Materials) list, or a curious soul wondering how giant battery farms power cities. Good news: we're diving into the nuts and bolts of energy.

The Advancing Contracting in Energy Storage (ACES) Working Group was formed in 2018 to document existing energy storage expertise and best practices to improve project development and financing efforts across the energy storage industry. Through this combined effort, the ACES Working Group.

The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and federal policies. All data can be exported to Excel or JSON format. As of September 22, 2023, this page serves as the official hub for The Global Energy.
