

# Energy storage prologis

## Overview

---

Prologis will build a 2MW/6MWh grid-scale battery storage facility at Prologis Park Chiba 1 in Chiba City, Chiba Prefecture, it announced on June 11, 2025. The project marks its first entry into the energy storage market.

Prologis will build a 2MW/6MWh grid-scale battery storage facility at Prologis Park Chiba 1 in Chiba City, Chiba Prefecture, it announced on June 11, 2025. The project marks its first entry into the energy storage market.

As energy needs increase and infrastructure adapts, Prologis delivers proven battery energy storage systems (BESS) that enhance grid stability, enable renewable integration and provide reliable power when it's needed most. Built to strengthen the grid, our energy storage systems are developed to.

Real estate platform and energy storage investor Prologis Energy has sold a 400MW/800MWh battery energy storage system (BESS) located in Alvin, Texas, US. Near Houston, Texas, the project is in one of the Electric Reliability Council of Texas' (ERCOT's) most congested zones. Prologis Energy has.

Prologis Energy has closed the sale of its largest battery energy storage project to date, a 400 MW (800 MWh) facility located just southwest of Houston in Alvin, Texas. The project is part of Prologis' intent to develop utility-scale energy assets and unlock value across its logistics real estate.

Prologis will build a 2MW/6MWh grid-scale battery storage facility at Prologis Park Chiba 1 in Chiba City, Chiba Prefecture, it announced on June 11, 2025. The project marks its first entry into the energy storage market. According to the statement, construction is expected to begin in December.

Optimize your operations with commercial energy storage systems that provide reliable, cost-effective energy to mitigate power outages and interruptions at your facility. Electrify your fleet with speed, simplicity and scale. Our solutions at the workplace, depots and hubs and workplaces, providing.
