

# Expected ROI of floor standing battery project in Australia 2025

## Overview

---

How many battery storage projects are being built in Q1 2025?

Stay proactive with real-time data and expert analysis. Moreover, three more battery storage projects began construction in Q1 2025, adding 840MW/2.9GWh in capacity and energy output.

Why is battery storage important in Australia's energy transition?

“Battery storage will be crucial in Australia’s energy transition, influenced by the growth of renewable energy and market volatility. Investors can anticipate strong returns across different scenarios, making this an opportunity to capitalise on the changing dynamics of the NEM,” concluded Narayan.

Will a new battery buildout increase battery capacity in Australia?

Even so, this buildout would result in a sevenfold increase in operational battery capacity over the next three years. Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.

Will Australia's NEM see a massive increase in battery energy storage capacity?

Australia’s NEM will see a massive increase in grid-scale battery energy storage capacity in the next three years. There are 16.8 GW of battery projects that could come online in the National Electricity Market (NEM) by the end of 2027.

How much is battery storage worth in Australia?

Credit: Phonlamai Photo / Shutterstock. The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial commitment stage, according to the latest Clean Energy Australia Report 2025.

How big is the battery market in Australia?

The report shows a growing market for batteries in the NEM, with a massive pipeline of 60 GW of projects under development representing over AU\$80 billion (US\$50 billion) of potential investment. Over 60 GW of battery storage projects under development in Australia Source: Wood Mackenzie Lens Power Service

## Expected ROI of floor standing battery project in Australia 2025

---

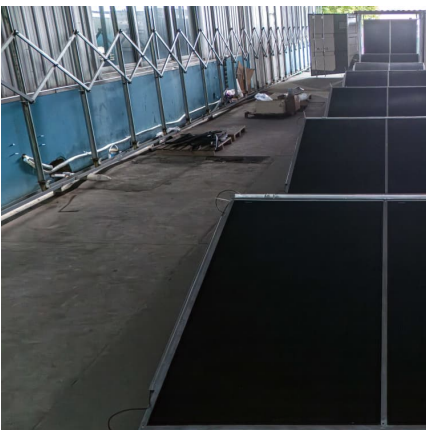

### [Modo Energy forecasts big future for NEM battery fleet](#)

Australia's grid-scale battery fleet is forecast to grow rapidly in the next three years with market analytics platform Modon Energy revealing 16.8 GW / 42.8 GWh of battery energy storage projects are in the pipeline in the National ...

### [Battery Storage: Australia's current climate](#)

The second stage will add a 240MW four-hour duration grid-forming battery to the 460MW two-hour duration battery already under development which is expected to come online at the end of 2025.

### **Plunging cost of big batteries: Latest gigawatt scale ...**

The big mover in the CSIRO's GenCost report was the plunging cost of battery storage. One major battery project may already be doing much better.

### **Australia has 7.8 GW of utility-scale batteries under ...**

The volume of large-scale battery energy storage projects under construction in Australia passed that of solar and wind projects combined in 2023

and the trend has intensified this year, with

### Australia Battery Market Size, Share, Growth Report , 2025-2034

The Australia battery market, valued at AUD 2.31 billion in 2024, has seen significant growth, driven by the role of battery storage in integrating renewable energy sources like solar and ...

### CAISO: The state of grid-scale battery energy storage in 2024

Which major battery projects are currently in testing and expected to reach commercial operation in 2025. How CAISO's Resource Adequacy market is shaping battery investment and financing ...

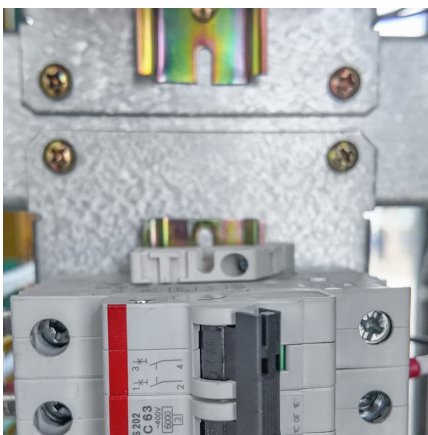

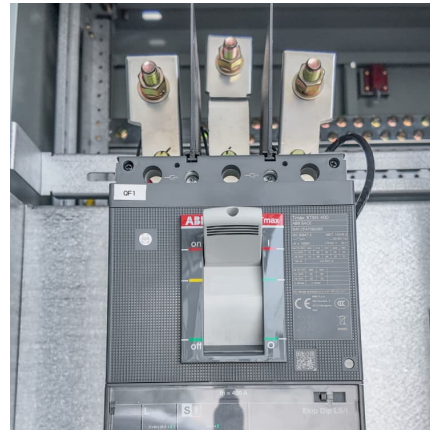

### Construction starts on first giga-scale battery project in ...

Danish energy giant begins construction of the first giga-scale battery project in Australia's most advanced renewable energy state.

### Large-scale battery storage investment in Australia reached ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the ...

### Community Batteries Funding Round 2

On 26 February 2025, ARENA announced \$46.3 million to deploy community batteries across Australia under Community Batteries Funding Round 2 of the Community Batteries Funding Initiative.

### [Big battery investment charges up in Q1 2025](#)

The first quarter of 2025 was the second best on record for investment in large-scale Battery Energy Storage Systems (BESS) in Australia, with six projects worth \$2.4 billion in total reaching the financial commitment ...

### Australia: The 2025 NEM Battery Energy Storage Pipeline Report

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.

### Australian utility-scale battery deployment surges past solar, wind

From ESS News With the commencement in December of construction on two new utility-scale battery projects in Queensland and New South Wales, 2024 set new records ...

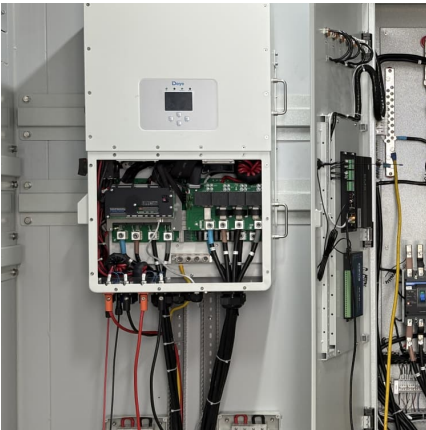

### [ROI on Solar Home Batteries in 2025](#), Shoalhaven Solar

What's the Real ROI on Solar and Battery Systems in 2025? With power prices climbing and energy uncertainty continuing, solar panels have become a no-brainer for many Aussie ...

### [Australia's most powerful battery to be fully ...](#)

Australia's most powerful battery, to act as a giant shock absorber, is now expected to be completed by the end of year after slow progress through commissioning.

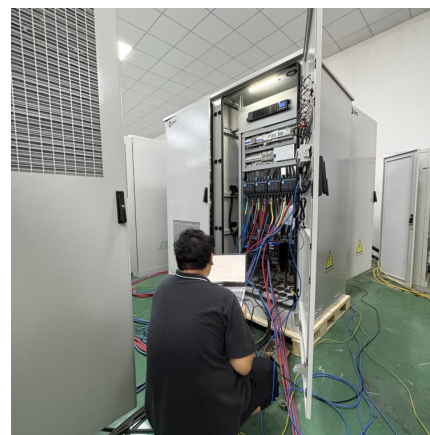

### **CAISO: The state of grid-scale battery energy storage ...**

Which major battery projects are currently in testing and expected to reach commercial operation in 2025. How CAISO's Resource Adequacy market is shaping battery investment and financing decisions. To get full access to Modo ...

### [Australian utility-scale battery deployment surges](#)

With the commencement in December of construction on two new utility-scale battery projects in Queensland and New South Wales, 2024 set new records for BESS project construction in the country

### **Strategic Analysis of Floor-standing Battery Charger Market Growth 2025**

The global floor-standing battery charger market is experiencing robust growth, driven by increasing demand for reliable power backup solutions across various sectors. The market's ...

### [SEC reveals major milestone for 1.6 GWh battery project](#)

The third and final transformer has arrived for installation at the Melbourne Renewable Energy Hub in Victoria with the 600 MW / 1,600 MWh first stage of the battery energy storage system (BESS) on track to come online ...

### Battery storage profitability looking up in Australia, ...

"Battery storage will be crucial in Australia's energy transition, influenced by the growth of renewable energy and market volatility. Investors can anticipate strong returns across different scenarios, making this an opportunity ...

### Maximising the ROI of Solar Panels and Batteries in ...

As more Australian home and business owners recognise the benefits of solar energy, one question stands out: 'How can I maximise the ROI of solar panels and batteries?' With energy prices projected to climb even higher ...

### Australia: Where are big batteries being built in the ...

Over 16 GW of new battery energy storage capacity is in the pipeline across the five regions of Australia's National Electricity Market (NEM). This could see 150 new batteries being constructed, compared to just the 27 operating today. This ...

### [Solar Battery Payback, ROI & Savings \(2025 Guide\)](#)

Solar Battery Payback, ROI, and Savings in Australia (2025 Guide) Discover solar battery payback periods, ROI, and savings potential in Australia. Compare solar with ...

### [Wellington Battery Energy Storage System, Australia](#)

Wellington Battery Energy Storage System, Australia The project will be designed as a grid-scale BESS with a total expected discharge capacity of 400MW.

### **Differences Between Wall-Mounted and Floor-Standing Battery ...**

Floor-Standing Battery Systems Range from 5kWh to 50kWh+ per unit Heavier and larger footprint (e.g., 600mm × 700mm × 1200mm) Installed on the ground, sometimes ...

### **Community Batteries Funding Round 2**

On 26 February 2025, ARENA announced \$46.3 million to deploy community batteries across Australia under Community Batteries Funding Round 2 of the Community ...

### Batteries lead charge in record breaking quarter for ...

The number of new clean energy and grid firming projects coming on line in the first quarter of 2025 has been the largest to date, according to the Australian Energy Market Operator's National Electricity Market ...
