

Expected ROI of residential ESS project in Australia 2026

Overview

Are building approvals improving in 2025 & 2026?

The report indicates that building approvals are improving, though the translation into actual housing completions will be limited in 2025 and 2026 due to inherent time lags in the construction process. For renters, some relief may be on the horizon.

How much did building work cost Australia in 2023-24?

Building works totalled \$24.0 billion in 2023–24. This is slightly down on the previous year, by -0.5 per cent. Activity in this sector increased in most parts of the country. However, the sizeable reductions suffered in Victoria and Western Australia neutralised the gains elsewhere. Retail and commercial building.

Why did residential and non-residential buildings rise in June 2024?

Non-residential building rose by +0.5 per cent. There was a very marginal increase in residential building output (+0.1 per cent) during the quarter. Worryingly, there was a 0.2 per cent dip in household consumption during the June 2024 quarter. This matters because consumer spending is.

Are record-high home prices expected in Sydney & Brisbane in FY26?

Record-high home prices are expected in Sydney, Brisbane and Adelaide by the end of FY26. Read the full report for detailed capital city forecasts and the factors shaping Australia's housing outlook. Detailed capital city forecasts and the factors shaping Australia's housing outlook in FY26.

Will Australian home prices continue to rise through FY26?

Check out our Privacy policy. Australian home prices are expected to continue rising through FY26, supported by lower borrowing costs, government support for first-home buyers and rising household incomes.

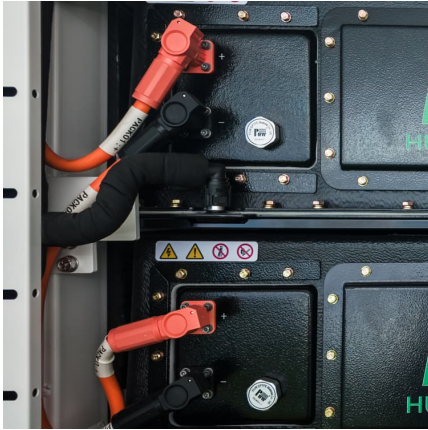

How much money did building projects make in 2023?

work done is estimated at \$11.8 billion in 2023-24. Projects related to social, cultural, and recreational building works totalled \$24.0 billion in 2023-24. This is
