Overview

How does energy storage peer review work?

Energy Storage operates under a single-blind peer review model. Except where otherwise stated, manuscripts are peer reviewed by at least two anonymous reviewers and an Associate Editor. Papers will only be sent to review if the Editor-in-Chief determines that the paper meets the appropriate quality and relevance requirements.

Does energy storage offer free format submission?

Energy Storage now offers Free Format submission for a simplified and streamlined submission process. Before you submit, you will need: Your manuscript: this should be an editable file including text, figures, and tables, or separate files—whichever you prefer.

What is the Journal of energy storage?

The Journal of Energy Storage focusses on all aspects of energy storage, in particular systems integration, electric grid integration, modelling and analysis, novel energy storage technologies, sizing and management strategies, business models for operation of storage systems and energy storage developments worldwide.

Does energy storage accept artwork submissions for cover images?

Cover Image Submissions Energy Storage accepts artwork submissions for Cover Images. This is an optional service you can use to help increase article exposure and showcase your research. For more information, including artwork guidelines, pricing, and submission details, please visit the Journal Cover Image page.

Does energy storage accept preprint articles?

This journal accepts articles previously published on preprint servers. Energy Storage will consider for review articles previously available as preprints. You

may also post the submitted version of a manuscript to a preprint server at any time. You are requested to update any pre-publication versions with a link to the final published article.

Can I post a pre-publication version of a manuscript to energy storage?

Energy Storage will consider for review articles previously available as preprints. You may also post the submitted version of a manuscript to a preprint server at any time. You are requested to update any pre-publication versions with a link to the final published article. Data Sharing and Data Availability Energy Storage expects data sharing.
