

# Garmin fenix 7 pro solar battery life

## Overview

---

The Garmin Fenix 7 Pro has excellent all-round battery life. Garmin state the following official stats: 18 days in smartwatch mode (22 days with solar); 57 hours using GPS network only (73 hours with solar); 40 hours using GPS, GLONASS and Galileo (48 hours).

The Garmin Fenix 7 Pro has excellent all-round battery life. Garmin state the following official stats: 18 days in smartwatch mode (22 days with solar); 57 hours using GPS network only (73 hours with solar); 40 hours using GPS, GLONASS and Galileo (48 hours).

The actual battery life depends on the features enabled on your watch, such as wrist-based heart rate, smartphone notifications, GPS, internal sensors, and connected sensors. 1 All-day wear with 3 hr./day outside in 50,000 lux conditions 2 All-day wear with 3 hr./day outside in 50,000 lux.

The Garmin Fenix 7 Pro has excellent all-round battery life. Garmin state the following official stats: 18 days in smartwatch mode (22 days with solar); 57 hours using GPS network only (73 hours with solar); 40 hours using GPS, GLONASS and Galileo (48 hours with solar, only 10 hours with music);.

It lists expected battery life under a variety of different circumstances. Depending on which mode you're using, the battery will drain more or less quickly. For example, in the default smartwatch mode - when you're not tracking an activity - the expected battery life is 11 days without solar.

It provides industry-leading health metrics, smartwatch features, and excellent battery life — one of the best for this case size. Garmin's standard user interface also looks great, given the high-resolution color touch screen. This was our go-to pick for everything from trail running to.

But here's the kicker: in optimal sunlight, three hours of direct exposure can give you up to 48 hours of battery in GPS mode. That's like getting free refills on your watch's energy drink! Adventure blogger Mike Kessler put it through a 300-mile desert hike. His setup: Result?

The watch lasted 22.

Garmin's Fenix 7 Pro is a standout in this category. Even the smallest model (42mm) delivers an impressive 11 days of battery life in basic smartwatch mode (the default mode, with no GPS tracking). While using GPS at full capacity (including tracking and maps) does reduce battery life, the 56-hour. Does the Fenix 7 Pro have a good battery life?

The Fenix 7 Pro doesn't have the best battery life out of all the models we tested, but it is one of the best for the weight and case size, and it now gets a boost from solar charging. We really like the Garmin PowerManager settings; you can turn on battery-saving modes for everyday use or adjust the power mode when starting a workout.

Does the Fenix 7 have a solar battery?

Here's the official solar-related battery chart of the Fenix 7 series, and how it compares to each iteration from the Fenix 6 series: As you can see, it's quite significant - again, assuming you have the solar power. But this is only showing that 3 hours. So imagine you're hiking in the summer across a mountain range.

How long does a Garmin Fenix 7 Pro last?

Garmin's Fenix 7 Pro is a standout in this category. Even the smallest model (42mm) delivers an impressive 11 days of battery life in basic smartwatch mode (the default mode, with no GPS tracking).

Does Garmin Fenix 7 have solar charging?

One feature I was curious about - and not particularly sold on - was Garmin Fenix 7 solar charging capabilities. It used to be optional on the previous generation of Fenix watches, and I probably wouldn't have splurged for the power glass if I had the option. But with the Pro generation, it comes default so there's no choice.

Is the Garmin Fenix 7 Pro A good GPS watch?

The Garmin Fenix 7 Pro provides one of the best user experiences and customization across any GPS watch. Even as the market continues to grow and competition increases, Garmin has continued to set the bar. This update to the Fenix line adds a flashlight, improved heart rate accuracy, solar charging, and loads of new performance metrics.

Which Garmin Fenix 7 Pro solar is best?

The 47mm case and MIP display on the Fenix 7 Pro Solar has some of the best readability and performance of any GPS watch. We would highly recommend this model for a variety of athlete types and users. While expensive, Garmin provides numerous metrics and stats across sports.
