

# Get the energy storage device to start the comprehensive experimental terminal

## Overview

---

In this segment, there are three Energy Devices, which need to be positioned beside their respective terminals. Everything needs to be done in an exact order, so I highly recommend you follow the walkthrough below step-by-step.

After talking to Caterpillar, acquire the energy storage device and unlock the research terminal ahead. There are three storage devices laying around, one each for the locked terminals scattered around the Mine Shaft!.

After talking to Caterpillar, acquire the energy storage device and unlock the research terminal ahead. There are three storage devices laying around, one each for the locked terminals scattered around the Mine Shaft!.

Follow the steps below to complete this logistically-confusing puzzle. Genshin Impact's An Eye for an Eye World Quest, which falls under the Unfinished Comedy quest series, involves helping two prisoners make a daring escape from the Fortress of Meropide. After finding the Geode Mine Shaft, you.

In this guide, we will tell you how to get an energy storage device and unlock the research terminal in Genshin Impact. When we did the quest, this subtask took a few minutes to complete. To complete the task as quickly as we did, follow the instructions below. As we mentioned above, this task will.

In this video, Learn how to acquire the Energy Storage Device and unlock the Research Terminal as part of the "An Eye for An Eye" quest in Genshin Impact. Follow these steps: Collect three Energy Storage Devices, marked on the map. In this video, Learn how to acquire the Energy Storage Device.

Players must collect three Energy Storage Devices and use them on three different Terminals to remove the barriers blocking the Research Terminal. The step is quite simple and easy to follow as the Research Terminals are marked on the map in Genshin Impact. However, players must be careful of the.

After talking to Caterpillar, acquire the energy storage device and unlock the research terminal ahead. There are three storage devices laying around, one each for the locked terminals scattered around the Mine Shaft! You can only break the seal of each terminal in a specific order, going from the.

During An Eye for an Eye World Quest in Genshin Impact, travelers get the objective to Acquire the energy storage device and unlock the research terminal ahead. Luckily, it is a very simple task. There are three storage devices and three research terminals in the Geode Mine Shaft. All you need to. How do you find a research terminal?

You will be able to easily spot the research terminal. Place the energy storage device near it and break the second seal, which will open more paths. Once that is done, go back to your original spot to pick up the last device. After collecting the third energy storage device, go straight and turn left at the end.

How do I activate all the energy storage terminals?

So, let's see what steps you need to take to activate all the terminals:  
Research Terminal #1: Take the first Energy Storage Device and move forward and to the right. You'll have practically no other options, so you'll know where to go right away.

How do you unlock a research terminal in Genshin Impact?

Acquiring the Energy Storage Device and unlocking the Research Terminal is part of the An Eye for An Eye Quest in Genshin Impact. Players must collect three Energy Storage Devices and use them on three different Terminals to remove the barriers blocking the Research Terminal.

How do I unlock the energy storage device?

Once the Drive Valve was operated, go to the Geode Mine Shaft by heading deeper within the tunnel. After talking to Caterpillar, acquire the energy storage device and unlock the research terminal ahead. There are three storage devices laying around, one each for the locked terminals scattered around the Mine Shaft!.

How do you use energy storage devices in Genshin Impact?

Players must collect three Energy Storage Devices and use them on three different Terminals to remove the barriers blocking the Research Terminal. The step is quite simple and easy to follow as the Research Terminals are marked on the map in Genshin Impact.

How do I unlock the research terminal?

Below is a guide to acquiring the energy storage device and unlocking the research terminal ahead. There are three seals in the Geode Mine Shaft. You must pick up all three storage devices and place them near the research terminals to undo them. This will power up the mechanisms, allowing you to interact with them and break the seal.
