

Gotion all-solid-state battery production

Overview

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing facility with made-in-China core equipment, an important step to large-scale use of the long-horizon solution for electric vehicles.

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing facility with made-in-China core equipment, an important step to large-scale use of the long-horizon solution for electric vehicles.

Gotion High-tech (SHE: 002074) has unveiled its latest advancements in all-solid-state batteries, as several local electric vehicle (EV) battery giants aim to mass-produce the new generation of batteries within the next 2 years.

Launched in 2024, Gotion's GEMSTONE all-solid-state battery now achieved a milestone by completing a 0.2GWh pilot production line, with a 90% yield rate.

Gotion's GEMSTONE all-solid-state battery, which was introduced in 2024, recently reached a significant milestone by finishing a 0.2GWh pilot production line with a 90% yield rate.

Chinese battery maker Gotion High-Tech has launched the first road testing for its next-generation all-solid-state batteries, after completing the country's first fully localized 0.2 Gigawatt-hour pilot line, marking a milestone in the global race to commercialize next-generation EV powers.

Gotion all-solid-state battery production

Gotion Completing the First 0.2GWh Pilot Line for All ...

Launched in 2024, Gotion's GEMSTONE all-solid-state battery now achieved a milestone by completing a 0.2GWh pilot production line, with a 90% yield rate.

Volkswagen-backed Gotion starts all-solid-state battery pilot production

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing ...

?TechNode ?Volkswagen-backed Gotion starts all-solid-state ...

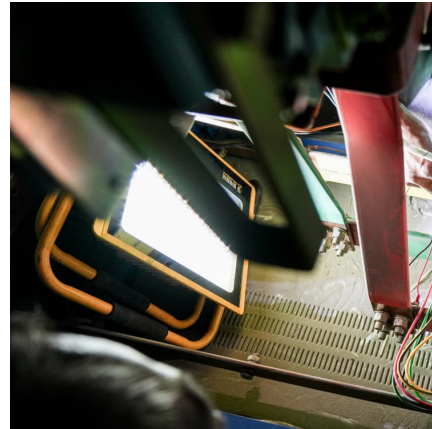

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing facility with made-in ...

[Major Breakthrough: Gotion High-Tech's "Jinshi" All ...](#)

Following the release of its first-generation "Jinshi" all-solid-state battery in May 2024, Gotion has now achieved a critical milestone: the

official commissioning of its first all-solid-state pilot production line.

Gotion Begins Pilot Production of Solid-State Batteries ...

Chinese battery manufacturer Gotion High-Tech has reportedly completed construction of its first pilot production line for the GEMSTONE solid-state battery. The plant has an annual capacity of 0.2 gigawatt-hours and is ...

Gotion Completing the First 0.2GWh Pilot Line for All-Solid-State ...

Launched in 2024, Gotion's GEMSTONE all-solid-state battery now achieved a milestone by completing a 0.2GWh pilot production line, with a 90% yield rate.

Gotion Launches 0.2 GWh Experimental All-Solid-State Battery Line

Gotion High-tech introduces its 0.2 GWh experimental production line for Gemstone all-solid-state batteries at the May 17 technology conference. Featuring locally ...

[Gotion builds its 1st experimental all-solid-state](#)

...

Gotion High-tech (SHE: 002074) has unveiled its latest advancements in all-solid-state batteries, as several local electric vehicle (EV) battery giants aim to mass-produce the new generation of batteries within the ...

[Gotion Launches 0.2 GWh Experimental All-Solid](#)

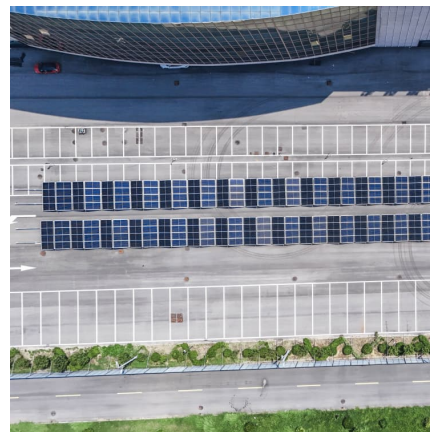

...

Gotion High-tech introduces its 0.2 GWh experimental production line for Gemstone all-solid-state batteries at the May 17 technology conference. Featuring locally produced equipment, the batteries achieve 350 ...

China's Gotion launches first road tests for all-solid-state batteries

4 ???· Chinese battery maker Gotion High-Tech has launched the first road testing for its next-generation all-solid-state batteries, after completing the country's first fully localized 0.2 ...

[Gotion builds its 1st experimental all-solid-state](#)

...

The battery maker's first experimental production line for the Gemstone all-solid-state batteries, with a design capacity of 0.2 GWh, has officially opened, it announced on May 17 at its 2025 technology conference.

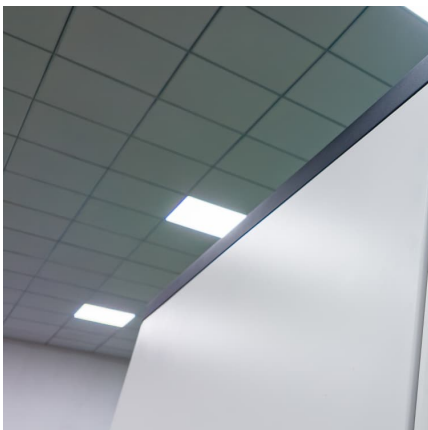

[Gotion Begins Pilot Production of Solid-State Batteries](#)

Chinese battery manufacturer Gotion High-Tech has reportedly completed construction of its first pilot production line for the GEMSTONE solid-state battery. The plant ...

Gotion Finishes the First All-Solid-State Battery Pilot Line at 0.2GW

Gotion's GEMSTONE all-solid-state battery, which was introduced in 2024, recently reached a significant milestone by finishing a 0.2GWh pilot production line with a 90% ...

?TechNode ?Volkswagen-backed Gotion starts all-solid-state battery

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing facility with made-in ...

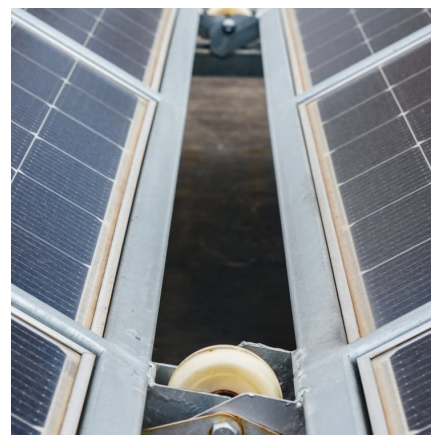

[Volkswagen-backed Gotion starts all-solid-state](#)

Chinese battery maker Gotion High-Tech said on May 17 it has started pilot production and achieved self-reliance for all-solid-state batteries at its Hefei manufacturing facility with made-in-China core equipment, an important ...

Major Breakthrough: Gotion High-Tech's "Jinshi" All-Solid-State Battery

Following the release of its first-generation "Jinshi" all-solid-state battery in May 2024, Gotion has now achieved a critical milestone: the official commissioning of its first all ...

Gotion builds its 1st experimental all-solid-state battery production

Gotion High-tech (SHE: 002074) has unveiled its latest advancements in all-solid-state batteries, as several local electric vehicle (EV) battery giants aim to mass-produce ...

Gotion builds its 1st experimental all-solid-state battery production

The battery maker's first experimental production line for the Gemstone all-solid-state batteries, with a design capacity of 0.2 GWh, has officially opened, it announced on May ...
