s already surpassed the total issuance in 2024. The Viability Gap Funding

(VGF) scheme, which offers up to 30% support for capital expenditure of standalone Battery ESS (BESS) projects, has primarily driven this acceleration. This initiative has addressed declining as also made projects more.

ezSearch contains procurement data as well as additional NASA data (for example, financial assistance actions). The National Interest Action (NIA) data element has been decommissioned and will not be collected on new Contract Action Reports (CARs) on or after January, 27, 2024. The NIA data element. Which ESS tenders will increase Indian ESS capacity manifold?

The latest ESS tenders issued by Solar Energy Corporation of India (SECI) and NTPC are the first in India to combine standalone ESS with on-demand use. These two standalone ESS tenders, by SECI and NTPC, have a cumulative storage capacity of 1 GW or 4 GWh. Thus, if executed well, these projects will augment Indian ESS capacity manifold.

What are ESS tenders & NTPC tenders?

The latest standalone ESS tenders from Solar Energy Corporation of India and NTPC will augment capacity manifold and help develop the local ecosystem. Given that ESS technology is in its infancy in India, the current tenders face several technical, procurement, and regulatory challenges.

What is ESS & how does it work?

andalone ESS functions as an independent asset. Utilities, grid operators or third-party entities can own and deploy it flexibly to provide grid balancing, peak shaving and ancillary services, enabling storage to operate based on grid.

Should ESS be integrated into capacity markets?

January 2025.21 Indian Energy Exchange (IEX). High Price Day Ahead Market. Accessed April 2025. Additionally, integrating ESS into capacity markets can provide a stable revenue stream while enhancing grid reliability. Offtaker-led tenders are gaining traction, but scaling them effectively will require more substantial financial backing, risk.

Will the government waive inter-state transmission system charges for ESS projects?

The government has waived inter-state transmission system (ISTS) charges for ESS projects commissioned before June 2025. In addition to issuing

standard bidding guidelines for BESS in March 2022, the government is working on a National Energy Storage Policy.

Who is entering the ESS market?

Advait Infratech, are also entering the space. JSW Energy has established itself as the leader in the grid-scale Standalone ESS market having secured nearly 2GW of awarded capacity. Other major players, such as IndiGrid, HG Infra Engineering and G nsol Engineering, have each secured over 300MW. An analysis of the technology focus reveals
