

# Government procurement price of solar with battery in South Africa

## Overview

---

In the sixth round of the REIPPPP program, the South African authorities selected five solar plants with a combined capacity of 860 MW, with the final average price coming in at ZAR 0.49048 (\$0.027)/kWh, up 8% from the fifth round, when the average price reached ZAR 0.45423/kWh.

In the sixth round of the REIPPPP program, the South African authorities selected five solar plants with a combined capacity of 860 MW, with the final average price coming in at ZAR 0.49048 (\$0.027)/kWh, up 8% from the fifth round, when the average price reached ZAR 0.45423/kWh.

The government wants to increase the price of renewable energy products imported from other countries to promote local manufacturing, which has raised concerns among stakeholders. On 17 April 2025, the International Trade Administration Commission of South Africa (ITAC) gazetted a review of the.

The Minister of Electricity and Energy, Hon. Dr. Kgosientsho Ramokgopa, announced the appointment of 8 (eight) Preferred Bidders under the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP) Bid Window 7, with a combined Contracted Capacity of 1760 MW, and a further 8.

The South African government is considering a significant change in its tariff structure for renewable energy products imported from other countries, with the aim of promoting local manufacturing. This move has sparked concerns among stakeholders who worry about the potential impact on energy.

The South African government wants to increase the price of renewable energy products imported into the country to promote local manufacturing. Industry players have raised concerns over possible consequences, including the South African Photovoltaic Industry Association (Sapvia) and the South.

Users can register free of cost and get unlimited access to not only Solar govt Tenders, e procurement and EOI ( Expression of Interest), but other Public Tender of similar products like: Photodiode Tenders,Photoresistor

Tenders, Photovoltaic Tenders, PV cell Tenders, pv panel Tenders, pv plant.

South Africa's latest auction is the first to be held under a December 2022 government plan to procure 14,771 MW of new generating capacity. The South African Ministry of Mineral Resources and Energy has published a list of bidders for the seventh round of the nation's Renewable Energy Independent. How many solar PV preferred bidders are there in South Africa?

The eight (8) Solar PV Preferred Bidders have committed to creating a total of 6 971 job opportunities for South African citizens (measured in job years) during both the construction and operational phases of the contracts.

Will a solar photovoltaic module rebate harm South Africa?

Sapvia also warned that discontinuing the solar photovoltaic module rebate would harm the sector. Sawea said it supports the government's long-term vision to bolster localisation and expand South African manufacturing capabilities. However, it believes more extensive consultation is required.

How many solar and wind projects are in South Africa?

Even though names have not been revealed, the department has revealed the bids cover four solar and four wind projects. Earlier this year, the South African government unveiled plans to deploy at least 3 GW of new renewables annually. This increases the renewables to 5 GW by 2030.

Where can I find South Africa solar tenders?

TendersOnTime, the best online tenders portal, provides latest South Africa Solar tenders, RFP, Bids and eprocurement notices from various states and counties in South Africa.

How many solar panels will South Africa deploy in 2024?

Earlier this year, the South African government unveiled plans to deploy at least 3 GW of new renewables annually. This increases the renewables to 5 GW by 2030. Lastly, country deployed 1.1 GW of solar in 2024, after a record year for solar additions in the year 2023.

Who won a solar project in South Africa?

The largest winner of this round is Pele Green Energy as it won 6 projects out of the 8 awarded. Winning prices ranged from ZAR 420.74 (\$22.71)/MWh for a

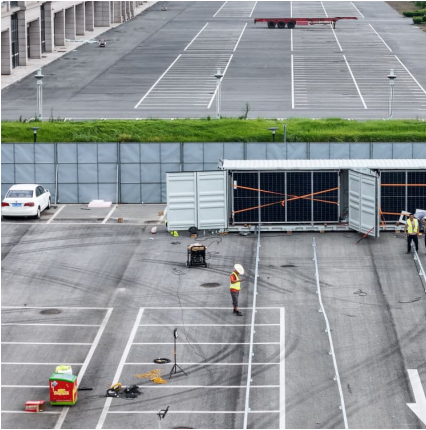

240 MW solar power plant to ZAR 492.20 (\$26.56)/MWh for a 190 MW project. Winning projects are located in the provinces of Mpumalanga, Limpopo, Free State, and North West.

## Government procurement price of solar with battery in South Africa

---
