

Hybrid renewable storage EPC turnkey quotation per 30MW 2025

Overview

Why is swrel launching a hybrid project in Rajasthan?

The Rajasthan hybrid project, including 69.3 MW of wind infrastructure, not only marks SWREL's entry into the wind EPC sector but also expansion into new supplier categories. This expansion brings in specialised civil and electrical contractors, wind turbine manufacturers and grid connection partners which broaden its procurement scope.

Why is swrel moving into wind EPC?

SWREL's movement into wind EPC reflects the broader shift towards hybrid energy solutions in India, combining solar, wind and storage systems to enhance grid stability as well as generation while reducing intermittency. Hybrid projects are notably favourable in regions with fluctuating resource availability or spatial constraints.

What is the scope of EPC contracts?

The scope of EPC contracts include large-scale procurement of solar modules, wind turbines, substations and related infrastructural necessities. SWREL has also secured L1 for a solar project in Gujarat, India of 200 MC AC/ 260 MWp DC PV plant from a prominent PSU developer.

Hybrid renewable storage EPC turnkey quotation per 30MW 2025

[Waaree Secures 40 MWhr Battery Storage EPC Project](#)

Waaree Renewable Technologies Limited (WRTL) today stated that it has won a Letter of Award (LoA) from Continuum Green Energy Limited to execute an Engineering, ...
