

# **Is tashkent energy storage integrator a state-owned enterprise**

## Overview

---

The Resolution mandates the Ministry of Investment, Industry and Trade (MIIT) and the State Assets Management Agency (SAMA) to allocate land plots for the development of the PV power plant and BESS within Yukorichirchik and Parkent Districts in Tashkent Region.

The Resolution mandates the Ministry of Investment, Industry and Trade (MIIT) and the State Assets Management Agency (SAMA) to allocate land plots for the development of the PV power plant and BESS within Yukorichirchik and Parkent Districts in Tashkent Region.

Uzbekistan is amongst the fastest growing economies in the Central Asian region, with an increasing demand for energy. By 2018, the country's power consumption reached 50 million TWh, and the domestic demand for power has been projected to rise at an annual rate of 4%, due to continued population.

The Tashkent Solar Energy Storage Project is a landmark renewable energy initiative in Uzbekistan, aiming to enhance the country's clean energy capacity and grid stability. Located approximately 20 kilometers northeast of Tashkent, the capital city, the project comprises a 200 megawatt (MW) solar.

As part of Uzbekistan's efforts to expand renewable energy and modernize its power infrastructure, three agreements have been signed in Tashkent between Wind and Solarshine for Electricity Distribution Panels Manufacturing LLC and China Energy International Group. One of the agreements outlines.

With the global energy storage market hitting \$33 billion annually [1], companies like Tashkent Energy Storage are rewriting the rules of sustainable power. Why Tashkent Energy Storage?

Spoiler: It's Not Just Batteries Let's face it—the energy storage game isn't just about stacking lithium-ion.

The World Bank and other financial institutions will provide a US\$159 million package for a 250MW solar PV and 63MW battery energy storage system (BESS) project from UAE state-owned renewable energy developer Masdar in

Uzbekistan. The project, which is central Asia's first renewable project to be. Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

Where is yangiyor-Tashkent gas pipeline located?

Residential community located north of the site boundary. paved road connecting the district to the main radial and outer ring roads of Tashkent City. Yangiyor-Tashkent gas pipeline, with a length of 201 km, depth of 0.8m to 1.5m below ground level and a diameter 1220mm.
