

Lingang management committee energy storage

Overview

Lu Yu, the director of the High-tech Department of the Management Committee of Lingang New Area, stated that Tesla's energy storage project is expected to complete trial production within the year, with a production scale of nearly 40GWh.

Lu Yu, the director of the High-tech Department of the Management Committee of Lingang New Area, stated that Tesla's energy storage project is expected to complete trial production within the year, with a production scale of nearly 40GWh.

The project, which will be built in Lin-gang, has an investment of 4 billion yuan (\$557.3 million), including a grid-side independent energy storage station and supporting facilities. In February 2025, the Tesla Shanghai Megafactory — Tesla's first overseas energy storage factory — commenced.

SHANGHAI, May 13 (Xinhua) -- A new mega factory project of U.S. carmaker Tesla Inc. has been granted a construction permit, according to the management committee of Lingang new area of the China (Shanghai) Pilot Free Trade Zone. As Tesla's first energy storage mega factory project outside the U.S.

The official WeChat account of the Shanghai Lingang Area Management Committee announced on May 13th that the construction permit for Tesla's Shanghai energy storage gigafactory has been issued. This marks Tesla's first energy storage gigafactory outside the United States, which is located near.

Lu Yu, the director of the High-tech Department of the Management Committee of Lingang New Area, stated that Tesla's energy storage project is expected to complete trial production within the year, with a production scale of nearly 40GWh. According to previous reports, Tesla's Shanghai energy.

Shanghai luminaries have expressed hopes that Tesla's Megapack energy storage plant in Shanghai, for which the US electric carmaker broke ground at the Lin-gang Special Area on May 23, will serve as an icon for the region's enterprises and help foster an industrial cluster centered around energy.

SHANGHAI, June 21 (Xinhua) -- U.S. carmaker Tesla on Friday inked a deal with Chinese partners to build a grid-side energy storage station in Shanghai using its Megapack energy-storage batteries. The deal, with a total investment of 4 billion yuan (about 556 million U.S. dollars), marked Tesla's.
