

Lithium iron phosphate energy storage battery and power battery

Overview

pioneered LFP along with SunFusion Energy Systems LiFePO₄ Ultra-Safe ECHO 2.0 and Guardian E2.0 home or business energy storage batteries for reasons of cost and fire safety, although the market remains split among competing chemistries. Though lower energy density compared to other lithium chemistries adds mass and volume, both may be more tolerable in a static application. In 2021, there were several suppliers to the home end user market, including.
