

Lithium mining and energy storage stocks

Overview

What are lithium stocks?

Lithium stocks are commodity stocks that have principal interests in the mining, refining and distribution of lithium. The companies included under the umbrella of lithium stocks may be involved in the production of other metals and minerals, but lithium will be included in their portfolio.

Should you invest in lithium stocks?

Multiple industries from transportation, energy production, and storage, the smartphone industry, and others make a strong case for investors to allocate a part of their portfolio to lithium stocks. Just consider the fact that the current penetration of electric vehicles in total car sales globally is still low.

What are the biggest lithium-mining stocks?

Biggest lithium-mining stocks 1. Rio Tinto (ASX:RIO,NYSE:RIO,LSE:RIO) Market cap: US\$99.83 billion Share price: AU\$112.70 Rio Tinto, a global powerhouse in the resource sector for decades, is mostly known for its iron and copper production.

What lithium stocks are poised for massive growth?

Our guide on lithium provides a deep dive into what lithium stocks are poised for massive growth in the near future. Albemarle Corporation is one of the largest lithium producers in the world, with locations on six continents. The chemicals company has a significant lithium business that develops a broad range of lithium compounds.

What is an alternative to investing in a single lithium stock?

If you're looking to diversify instead of focusing on one stock, there is the Global X Lithium & Battery Tech ETF (NYSE: LIT), an exchange-traded fund (ETF) focused on the metal. Experienced investors can also look at lithium futures. Lithium stocks like those mentioned above could be a good option for

investors interested in the space.

What are the best lithium stocks?

One of the younger firms on this list of best lithium stocks, Pilbara was incorporated in 2005 and primarily produces lithium through a wholly-owned project located in a region of Western Australia. That site is billed as the largest independent hard-rock lithium operation in the world, and Pilbara has estimated the mine life at 34 years of output.
