Find a NeoVolta solar battery certified dealer near you here, & take a step

towards reliable solar power.

How much does a home battery storage system cost?

The typical home battery storage system size is around 4kWh. As a guide, expect to pay around £4,000 for a standard battery of this size with a 10 to 15-year life. However, the price of solar power batteries can range hugely depending on your needs and the model you choose.

Should I hire a professional to install my solar battery system?

We would always recommend hiring a qualified professional to install your solar battery system. Many battery and inverter manufacturers insist on this in order to validate their guarantees. As well as helping to select the right capacity battery for your needs, there's also the location to think about:
