

MW scale storage system tender price in Bulgaria 2025

Overview

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its.

The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone energy storage systems. It issued the draft framework for public debate, which lasts one month. The government said it prepared EUR 589 million in subsidies for the construction and commissioning of a national.

A call for new energy storage capacity in Bulgaria has awarded 9,712.89 MWh of projects with a total investment value of BGN 1.149 billion (USD 675.8m/EUR 587.5m), the Balkan country's energy ministry said on Thursday. The 82 successful projects were allocated under the "National infrastructure for.

The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy storage, and the bids submitted amount to four times the available capital available. Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (€590).

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date. With nearly 10 GWh of standalone energy storage capacity awarded—more than triple the initial target—the country is making significant headway in reinforcing.

Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE. The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said. Which energy storage technologies are available in Bulgaria?

Bulgaria's energy storage tender is open to all technologies, but most projects are likely to have proposed lithium-ion battery energy storage systems (BESS) and Malinov mentioned battery projects in his comment.

How many MWh will a new energy storage project deliver?

The selected projects will deliver a total usable energy storage capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 GWh originally set by the tender. The deadline for submission of project proposals was December 5, 2024.

Will battery projects improve energy security in Bulgaria?

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the Ministry in May, and approved by the EU last month.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.

MW scale storage system tender price in Bulgaria 2025

[Saudi Arabia invites RFQ for Group 1](#)

Saudi Power Procurement Company (SPPC) invites Request for Qualification (RFQ) for Group 1 Battery Energy Storage Systems (BESS) having Combined Capacity of 2,000 MW across Saudi Arabia on build, own and ...

[Bulgaria launches 3 GWh standalone energy storage ...](#)

The procurement procedure, named RESTORE, will offer nearly BGN 1.2 billion (\$656 million) for the construction and commissioning of renewable energy storage facilities with a minimum usable energy capacity of ...

Battery energy storage systems The case of Bulgaria: recent ...

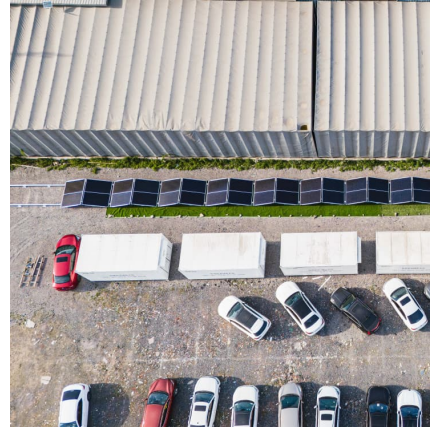

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

Evolution of Grid-Scale Energy Storage System Tenders in ...

The NTPC tender states that the energy storage system developer (ESSD) can use any technology in its bid submission. However, considering the

scale of the project, the only ...

[US states tendering for 550 MW of energy storage](#)

A request for proposals (RfP) has been drawn up for around 450 MW of storage capacity in Michigan and Tennessee Valley Authority (TVA) wants a 100 MW battery energy storage system (BESS) for its new 1.55 GW gas and ...

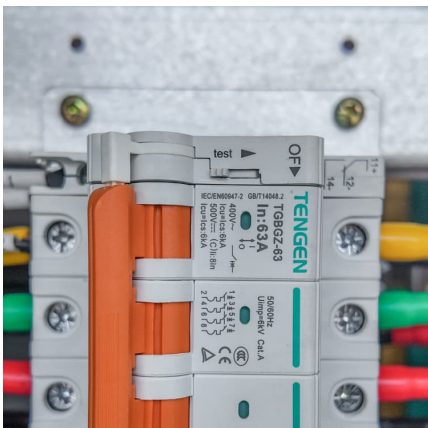

[Bulgarian tender awards nearly 10 GWh of energy ...](#)

The public call was open for projects equal to or greater than 10 MW with at least two hours of storage capacity, which will be primarily used in the frequency regulation markets. There was no minimum amount of financing per ...

[Bulgaria outlines EU-funded tender for standalone ...](#)

Bulgaria already held the first two tenders for battery energy storage systems (BESS) that would be integrated with renewable electricity plants. Bulgaria gives special focus to energy storage Earlier this month, ...

Western Australia tender attracts seven times planned ...

The WA projects total 654 MW/2,595 MWh, enough to supply the peak electricity load for more than 600,000 homes for four hours. The tender attracted bids for seven times more project capacity than the 500 MW aim of ...

[Bulgaria inaugurates 496 MWh battery system](#)

Bulgaria has completed a 496 MWh battery energy storage system, billed as the largest in the European Union. Crews completed the project in six months with backing from local authorities.

[Argentina launches 500 MW storage auction](#)

The Argentine Energy Secretariat, which is part of the Ministry of Economy, has launched an international call for proposals seeking to add 500 MW of battery energy storage ...

Bulgaria opens EU-funded 3000 MWh stand-alone battery storage ...

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery ...

BULGARIA LAUNCHES 3 GWH STANDALONE ENERGY STORAGE TENDER

Tender for mobile energy storage power station in zimbabwe The tender was released on Dec 28, 2024. Summary - Design, Engineering, Supply, Packing And Forwarding, Transportation, ...

China Energy Engineering Launches Record 25 GWh Storage Tender ...

China Energy Engineering has announced the world's largest-ever battery storage tender, totaling 25 GWh, as fierce competition drives prices to unprecedented ...

Bulgaria allocates close to 10 GWh of energy storage ...

Bulgaria's Ministry of Energy will finance 82 standalone renewable energy storage projects with a combined grant budget of BGN 1.154 billion (~\$675 million) under the EU-backed RESTORE procurement scheme.

[Bulgarian Tender Awards Nearly 10 GWh of Energy Storage](#)

The chosen projects were evaluated for their ability to meet Bulgaria's energy storage needs while adhering to the program's rigorous standards. The high storage capacity ...

['Mind-blowing' bids in Power China's 16GWh BESS tender](#)

EPC firm Power China's recent 16GWh BESS supply tender has seen very low prices bid, amidst a squeeze of market share from state-owned firms.

[Telangana's 250 MW/500 MWh battery storage tender ...](#)

Telangana Power Generation Corp.'s tender for 500 MWh (250 MW x two hours) of standalone battery energy storage, connected with the state grid, has yielded a lowest price of INR 2.40 lakh (\$2,808)/MW/month from ...

Greece's PPC turns sod on 165-MWp solar-storage park in Bulgaria

The photovoltaic (PV) farm will be built in Stara Zagora, central Bulgaria, and will be capable of producing more than 265 GWh of electricity annually. The plant will be coupled ...

Bulgaria Battery Energy Storage System (BESS) Market Outlook 2025

By the end of 2024, Bulgaria had a cumulative installed solar capacity of 4,568 MW (4.57 GW), representing an increase of 1,283 MW (1.28 GW) compared to 2023. The rapid growth of solar ...

EU's Largest BESS Project Now Online in Bulgaria

A battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the ...

Bulgaria Launches Renewables Energy & Storage Tenders

The BG-RRP-4.032 tender will support new solar and/or wind power projects with co-located energy storage facilities. A budget of BGN 107.57 million (\$60 million) has been ...

[Bulgaria begins tendering for 1.4GW renewables.](#)

...

Karad, an existing solar PV project in Bulgaria. Image: RP Global. Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery energy ...

SEC receives Bids for 1,000 MW Battery Energy Storage System ...

Saudi Electricity Company (SEC) receives Bidders Proposals for Battery Energy Storage Systems (BESS) having Combined Capacity of 1,000 MW. The Project location is in ...

[Where will lithium-ion battery prices go in 2025?](#)

The rapid decrease in lithium ion battery prices seen in previous years is likely to be slowed down in 2025 due to an uptick in battery material costs. These will in turn be partly offset by falling manufacturing costs ...

Largest battery storage system in Balkans commissioned in Bulgaria

A BESS facility of 124.1 MW in operating power was inaugurated in Lovech in Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the ...

Bulgaria Tenders , RFP, Bids, eProcurement , Bulgaria ...

Latest Bulgaria government tenders, RFP and eProcurement notices from the biggest online database of Bulgaria Tenders. Users can register to get info on eTenders, EOI, GPN and other ...

[Bulgaria Is Promoting Standalone Battery Storage ...](#)

The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 GWh originally set by ...

[EU's Largest BESS Project Now Online in Bulgaria](#)

A battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the country's Ministry of Energy said

What is the Cost of BESS per MW? Trends and 2025 Forecast

The cost per MW of a BESS is set by a number of factors, including battery chemistry, installation complexity, balance of system (BOS) materials, and government ...

Monthly RE Update - April 2025

Our Monthly RE Update April 2025 report on RE industry covers: Monthly RE Update April 2025 - Tenders Issued New RFS Issued: About 3455 MW of RE tenders was ...

[Bulgaria Is Promoting Standalone Battery Storage ...](#)

The public call was open for projects equal to or greater than 10 MW with at least two hours of storage capacity, which will be primarily used in the frequency regulation markets. There was no minimum amount of financing per ...

[Bulgaria Inaugurates 496 MWh Battery System](#)

Bulgaria has launched a 124 MW/496.2 MWh battery energy storage system (BESS) in Lovech, a town in central northern Bulgaria. The Ministry of Energy describes this facility as the largest of its kind currently ...

[Argentina Launches \\$500M Battery Storage Tender to ...](#)

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program. Aimed at enhancing grid reliability in the ...
