

Mobile ESS unit project financing options in Libya 2030

Overview

How many projects are planned in Libya?

Projects that have proceeded have benefitted from specific conditions unique to them. About \$9.2bn of major projects are planned or underway in Libya. Of these, about \$8bn of projects are under construction, with \$1.2bn planned. The construction and gas sectors together account for about 97 per cent of all projects planned or underway in Libya.

What are Libya's priorities?

Libya plans to focus on sustainable growth by developing the private sector, investing in large-scale infrastructure programmes and implementing structural reforms to ensure an accountable, merit-based, performance-oriented public sector. The country priorities chart is based on the following document: "Revival of Libya, Vision 2030".

What happened to Libya's project market?

Dominated by civil war and political instability since the 2011 revolution, Libya's project market is largely on hold until some semblance of stability is restored and a stable government is established. As a result, the vast majority of known projects in Libya are on hold or cancelled.

How much is a project contract worth in Libya?

The value of annual project contract awards peaked in 2008 at \$570m, when it was boosted by the award of the contract on the \$260m Misurata Rolling Mill. With devastated infrastructure, abundant oil and gas reserves, and close proximity to the giant EU market, there is no questioning Libya's potential as a projects market.

How much does a deep sea port cost in Libya?

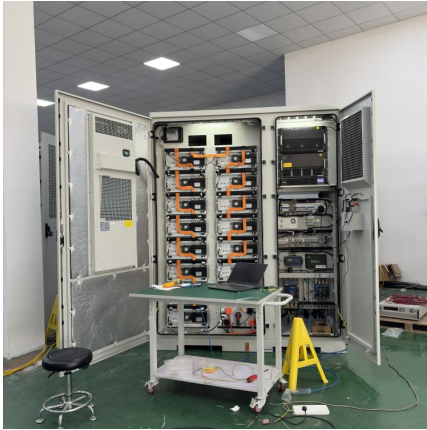

If implemented as planned, the proposed deep sea port in Susah will be Libya's first PPP project. The port will be developed in three phases, with the

initial phase expected to commence in 2022. Phase 1 of the project is estimated to cost \$200m. The succeeding two phases of the port will cost another \$1.2bn.
