

Office building energy storage project financing options in Poland 2026

Overview

Funding is available as grants and/or loans: grants may cover up to 45% of costs (plus 10% for medium and 20% for small enterprises), while loans can finance up to 100%.

Funding is available as grants and/or loans: grants may cover up to 45% of costs (plus 10% for medium and 20% for small enterprises), while loans can finance up to 100%.

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. The scheme's objective is to build a large-scale battery energy storage system (BESS). What projects are eligible for the.

The Modern-ization Fund is your chance to join a transformative energy transition initiative with government support Invest in energy storage and benefit from Poland Modernization Fund pro-program, with subsidies covering up to 65% of costs provided by NFOSIGW! Choose ZOE's offer and unlock an.

In Q4 2024, the new multiannual financial framework is to bring numerous opportunities of supporting businesses in energy transition. In the first place, funding will be available to companies planning to invest in the broadly perceived energy efficiency. It will also cover investment projects.

More than PLN 4 billion (\$1 billion) provided by the European Union's Modernization Fund will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028. "The construction of energy storage facilities is essential for the.

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn). This initiative aims.

The Polish National Fund for Environmental Protection and Water Management (NFOŚiGW) announced on April 4, 2025, that it would begin accepting

applications for co-financing energy storage facilities. This initiative, backed by over \$1 billion in funds from the European Union's Modernization Fund. What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

Can Poland co-finance electricity storage facilities?

Credit: Phonlamai Photo/Shutterstock. Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn).

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.

Will energy storage systems projects be subsidised under the National recover & Resilience Plan?

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. More ».

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

Can a loan cover a nuclear power plant in Poland?

Loans, available on preferential or market terms, can cover up to 100% of eligible costs. Poland recently took a significant step towards establishing its first nuclear power plant with the approval of 60.2bn zlotys in funding. Sign up for our daily news round-up!
