

# **Panama city energy storage development goals**

## Overview

---

First established in 2020 and founded on EPRI's mission of advancing safe, reliable, affordable, and clean energy for society, the Energy Storage Roadmap envisioned a desired future for energy storage applications and industry practices in 2025 and identified the challenges in realizing that vision.

First established in 2020 and founded on EPRI's mission of advancing safe, reliable, affordable, and clean energy for society, the Energy Storage Roadmap envisioned a desired future for energy storage applications and industry practices in 2025 and identified the challenges in realizing that vision.

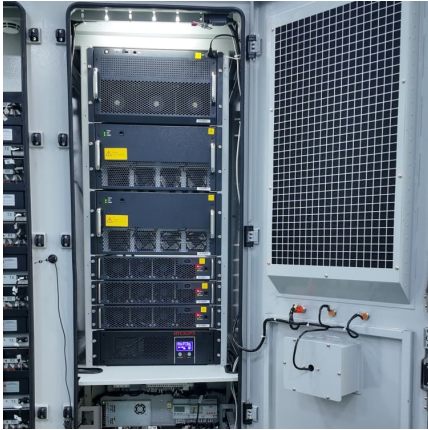

By 2024, Panama's Energy Transition Agenda (ATE) plans to reach 4.3% of distributed generation (DG) installed capacity, up from 1% today, and to reach 1 700 MW installed DG capacity in 2030. It also plans to increase electro mobility penetration to 10% in 2024. Alliance (CESA), identifies and.

With 119 major storage projects in development across the tropics [5], Panama's becoming the ultimate proving ground. The winning tech here could soon be: As one judge quipped: "We're not just charging batteries - we're charging up the entire renewable energy playbook." [2].

## Panama city energy storage development goals
