

# Photovoltaic ESS cost vs benefit calculation in Switzerland

## Overview

---

Will photovoltaics boost renewable power production in Switzerland?

A new monitoring report of the “Energy Strategy 2050” in 2019 shows that the increase in renewable power production in Switzerland is on track to reach the 4.4 TWh benchmark for 2020 (see graph above - the value for 2019 is 4.19 TWh). The contribution from photovoltaics is thereby above the long-term scenarios.

Are solar panels compatible with a photovoltaic system?

Compatibility with a photovoltaic system is primarily determined by solar radiation, roof orientation, inclination, shading, and roof size. Calculate the profitability of a photovoltaic system with our Solar Calculator - Are solar panels worth it?

Solar systems combined with high self-consumption often pay for themselves after 15 to 20 years.

How much solar power can a Swiss house generate?

According to a recent study by the Swiss Federal Office of Energy (SFOE) based on data from a solar potential cadastre (sonnendach.ch) and meteorological data, Swiss houses and factories could generate up to 67 TWh of photovoltaic power per year (current power consumption is around 60 TWh).

What is the PV potential of a Swiss roof?

The Swiss Federal Office of Energy has announced in September 2018 that the PV potential on Swiss roofs was about 50 TWh. It represents about 90% of the annual consumption of Switzerland. The evaluation is based on the national maps for PV roofs and on a selection of the most suitable roofs.

Is photovoltaics a key pillar of the future Swiss electricity supply?

Electricity production from photovoltaics is one of the key pillars in the

strategy for the future Swiss electricity supply.

Is a solar roof suitable for a photovoltaic system?

Our Solar Calculator analyzes the profitability of a PV system for you. If the roof is suitable for a photovoltaic system, the question often arises: Is the investment worth it?

From a purely ecological point of view, this question can always be answered with a yes.
