

Portable energy storage battery shipment ranking

Overview

The chart below compares the shipment volumes for large-scale and portable storage markets in Q1 2025. The Q1 2025 data highlights a dynamic energy storage market, with CATL leading while competitors intensify their rivalry in both large-scale and portable segments.

The chart below compares the shipment volumes for large-scale and portable storage markets in Q1 2025. The Q1 2025 data highlights a dynamic energy storage market, with CATL leading while competitors intensify their rivalry in both large-scale and portable segments.

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 GWh, a 150.62% year-on-year increase, despite a 7.75% quarter-on-quarter decline. Policy-driven factors, including U.S. tariff impacts and.

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipment reached 114.5 GWh in the first half of 2024, of which 101.9 GWh going to utility-scale (including C&I) sector and 12.6 GWh going to small-scale (including communication) sector. The market.

Among the top 10 global battery manufacturers (power + energy storage) in 2024, six are Chinese companies: CATL, BYD, EVE Energy, CALB, Gotion High-Tech, and Sunwoda. Three South Korean companies—LG Energy Solution, Samsung SDI, and SK On—along with Japan's Panasonic also made the list. Part 1.

Chinese energy storage battery companies performed exceptionally well, achieving record-breaking global shipments. CATL maintained its leading position for consecutive years, while other companies such as EVE Energy, HiTHIUM, BYD, and AESC followed closely. In 2024, the global energy storage market.

The rankings are based on shipment data from InfoLink's Energy Storage Supply Chain Database. In Q1 2025, China's market showed steady growth,

the U.S. market saw front-loaded shipments, and emerging markets gained momentum, driving global energy storage system shipments to a record high of 71.5.

The five largest battery energy storage system (BESS) integrators have installed over a quarter of global projects. Mainland China battery storage market has experienced drastic growth since 2022 and is . The second quarter of 2023 was the first quarter on record in which global residential.
